GovConPay
Focus Matters

Manage key employee data with GovConPay's **Unanet EZ Interface**

A cost-effective solution for Unanet users who aren't ready to invest in the fully-automated API-based solution.

We were built for Government Contractors. Complete your mission by scanning this QR Code:

As a robust human capital management solution that supports the full employee life-cycle, GovConPay's isolved platform serves as the employee system of record. Through our on-demand Unanet EZ Interface report that is mapped to your Unanet account, administrators can **seamlessly import over 50 key employee data fields to manage new employees and changes.**

GovConPay's Unanet EZ Interface helps **streamline your processes and increase efficiency**. By eliminating the need for dual entry, the interface **saves time and reduces the risk of manual errors**. Additionally, the interface allows you to **control when you want to send updates to Unanet**, ensuring that their data is always up-to-date and accurate. The Unanet EZ Interface also **offers significant cost savings** compared to other automated integrations, making it your perfect cost-effective solution.
