Dear Sir:

Star Boat # 164

The accompanying three copies of dimensions for the above boat are again submitted that she may be ruled upon.

I would mention that this boat on first submission was disqualified owing to the length overall 22' 10" being too great. Your letter of March 29th.

The length has been reduced by 2 $\frac{1}{2}$ " by cutting this amount from the stem head, the moulding of which was somewhat in excess of that called for.

The beam also was in excess of present regulations. This was reduced by planing off the topsides for about 4' 0" close up to the underside of deck.

You will therefore see that, whilst this boat now conforms as regards dimensions, her construction for planking thickness cannot be said to be in accordance. In view of the year when this boat was built however and the desirability of holding this fleet together, might I suggest that she may receive her certificate.

Very truly yours,

C. Padgett Hodson.
