Subject: Measurement Certificates
for Star Boat #1050 and
Star Boat #1920

Reference (a): Your letter dated May 23, 1941

Dear Sir:

With regard to measurements of Star Boat No. 1050 please be advised that the heights of side were indicated as being heights above base line. When considering just the height of the side these dimensions should be revised to conform with the following information.

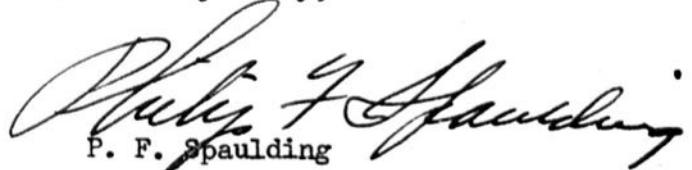

Heights of Side:

Station 3	20-7/8"
Station 6	21-1/2"
Station 8	17-3/8"

"B" measurement should be altered to read 3' 11-1/8" as this item was also in error on the original Measurement Certificate.

Mr. Earl Fisher moved the gib stay on the boat No. 1920 which results in the dimensions being changed to 22' 8-7/8". It is requested that in light of the above information these Certificates be corrected and approved.

Yours very truly,

P. F. Spaulding
