**PURPOSE:**                       Amend                       Replace

**RULE 21.1** and Notice to builders and sailmakers as follows:

A boat is eligible and considered to be in the Star Class only if it has been properly registered, conforms to measurement rules and is owned by a qualified active or life member recorded at the time as in good standing with the ISCYRA.

An ineligible boat must be barred from all Star races, and cannot be reinstated until all requirements of the ISCYRA have been fulfilled.

### PROPOSED TEXT:

A boat is eligible and considered to be in the Star Class only if it has been properly registered, conforms to measurement rules, **is built by an active builder** and is owned by a qualified active or life member recorded at the time as in good standing with the ISCYRA.

An ineligible boat must be barred from all Star races, and cannot be reinstated until all requirements of the ISCYRA have been fulfilled

( see builders section Notice To Builders and Sailmakers)

---

**PURPOSE:**                       Amend - Notice to Builders and sailmakers

### Builders

In order to obtain a license to build a Star boat, a builder must conclude a License Agreement with the International Star Class Yacht Racing Association (ISCYRA) and submit to the Technical Advisory Board (TAB) the following:

1. Hull Construction and lines drawing
2. Lay-up schedule and samples of lay-up

3. Drawing of keel, rudder and skeg
4. Construction of mast, boom and rigging.

No number or measurement certificate can be issued until the above items have been approved by the TAB. If a builder changes his construction he is required to submit the concerned drawings or samples to the TAB for approval. After the License is granted no changes may be made to the hull, deck or keel shape without the licensee submitting a change order to the ISCYRA for approval. No change can be made without approval from the ISCYRA.

### PROPOSED TEXT:

#### Builders

In order to obtain a license to build a Star boat, **and therefore be considered an active builder**, a builder must conclude a License Agreement with the International Star Class Yacht Racing Association (ISCYRA) and submit to the Technical Advisory Board (TAB) the following:

1. Hull Construction and lines drawing
2. Lay-up schedule and samples of lay-up

3. Drawing of keel, rudder and skeg
4. Construction of mast, boom and rigging.

**Moreover, a full boat measurement has to be performed at least every four years. A minimum of three measures have to attend the boat measuring procedure: a Certification measurer, a TAB representative and a qualified third party measurer.**

No number or measurement certificate can be issued until the above items have been approved by the TAB. If a builder changes his construction he is required to submit the concerned drawings or samples to the TAB for approval. After the License is granted no changes may be made to the hull, deck or keel shape without the licensee submitting a change order to the ISCYRA for approval. No change can be made without approval from the ISCYRA.

---

**REASONS:**

To better define the unclear text reported on the Star Measurement Certificate related to the number of boats built in sequence since last full measurement.

To verify if the builder is updating the construction taking into account the rules annual amendments.

By applying the joint measurement of three measurers, a fair and transparent result is achieved in the spirit of equality and sportiness of the Star class.

The full boat measure is also an opportunity for updating the measurers and/or for appointing new class measurers.
