

2672

Dear Mister Ketcham!

In this Letter I send you the form for Certifikate and it belongs to the Starboat "Sagitta" number 2675 and the paper, which shows the weigth of keel, this are exaktly --fourhundred and two Kilogramms. ---402 Kilos. The gentleman, filling this form as our measurer in Austria and at first, he was named for Measurer. In the last days, he said to us, that he is unable to lead this job in the next time. The measuring of Star "Sagitta" was his last work. But now, we hope, that you are able to send us our certifikate in a short time We hope until the 10th July. In the next days, you will get some other forms from our boats. We have draxned this forms, because we have not any one. At the moment, when the forms from your office arrived, we use exaktly only this official forms. Waiting for a good and fast answer with our certifikate, I remain with best regards
