Dear Sir

N° 2732

Enclosed is the certificate of measurement for the above. The keel is pre-war and the certificate was in my hands when war broke out. Unfortunately all my papers were destroyed in the blitz but I have examined the builder's back invoices and found the record of weight there.

It is regretted that the side measurements have been taken as for gunifer ^{#1573} and I hope this can be adjusted.

The rigging is being adjusted to bring the jib stay down to its required position. The boom has been shortened by shifting the outboard eyelet to 14.7 and with your approval a black ~~for~~ band will be placed on the mast 31'-9" above point B.

Yours truly
E. R. Crane
