Dear Skip:

Herewith measurement certificate for #2743. Approval is granted subject to receipt of mast and jibstay height and boom length. I'll take your figures for these when you can get at the rig to measure them carefully and send them to me. This may sound unnecessary, but I'm superstitious about these particular dimensions as some Saybrook boats got out of the shop with errors and caused adverse comment.

As you no doubt know, boom length is from base of mast groove to outer end of sheave, wood, or ultimate point to which sail can be pulled. Mast measured to top of sheave, not pin.

WWS:ps
