I have verified the spar measurements on Mr. Trask's
Starboat #4862. They are as follows:

Mast From Point B 31' 9"

Length of Boom 14' 7"

Jib Stay from
Point B 22' 9"

It is my understanding the above measurements are
needed to complete the measurement certificate for

of the above measurements a complete certificate
will be issued.

Very truly yours,

Attention: Measurement Committee

Gentlemen:

On March 2, 1966, I forwarded to you a letter, with a certified copy of keel weight change for my Star boat #4862.

To date, I have not received a reply as to the acceptance or legality of this change. I would appreciate hearing from you, as I intend to participate at the "Silver Stars" in Cleveland.

A reply from your Committee would be appreciated.

Very truly yours,

Donald J. Trask
