2. This Certificate shall be binding upon all members, Star Fleets, Clubs, or organizations conducting races for the Star Class as such. Attn: Measurement Committee

I hereby certify that on October 4, 1971 I mailed to the I. S. C. Y. R. A. New York office the measurement certificates and weight certification for Star #5603, owned by Mr. R. J. Matthews. This apparently went astray in the mail.

Enclosed are duplicates of the original certificates. The keel weight certificate was a freight bill of lading. I can not obtain a duplicate of this, but I can and do affirm that the weight thereon was 892 pounds. The yacht was weighed under my supervision, and I certify that the weight of the yacht was 1460 pounds. The hull weight was certified to be 405 pounds by the builder, Mr. Carl Petersen. Mr. Petersen will forward a duplicate hull weight certificate direct.

In view of the inconvenience that the delay in granting of an approved certificate has caused Mr. Matthews, may I request that the processing of these certificates be expedited to the greatest possible extent.
