Sec. C.

INSTRUCTIONS TO CERTIFIED MEASURERS

1. The duties of a Certified Measurer are confined to measuring yachts and reporting facts. He has no authority to grant or reject certificates or interpret rules. Complete instructions as to how to measure will be sent to him by the International Measuring Committee after his appointment.
2. This Form must be made out by the Certified Measurer IN DUPLICATE. He must answer all questions in Sec. A, and fill in all dimensions called for. Then file both copies with International Measurement Committee.
3. Sails are measured before sanctioned championships, at other times the Fleet is responsible for checking them. Certified Measurers, if authorized by a Fleet, can approve or reject sails.
4. Certified Measurers are entitled to a reasonable fee for measuring, but the Association is not responsible for its payment, and Certified Measurers are advised to collect their fee before filing this Form.
5. A Certified Measurer cannot measure a yacht in which he owns an interest except under duly appointed and authorized supervision..

Sec. D.

CONDITIONS UNDER WHICH CERTIFICATE OR RENEWAL IS ISSUED

1. This Certificate is not valid unless it bears the inspection stamp of the I. S. C. Y. R. A. and is signed by the Chairman of the International Measurement Committee. It shall be automatically revoked if any structural alterations are made or if not properly endorsed over to a new owner by former owner, or may be revoked at any time by order of the International Measurement Committee or the Governing Committee of the International Star Class Yacht Racing Association.
2. This Certificate shall be binding upon all members, Star Fleets, Clubs, or organizations conducting races for the Star Class as such. The holder of this Certificate shall not be subject to protest on hull measurements unless an order to remeasure is obtained from the International Race Committee, International Measurement Committee, or Governing Committee, or unless the protesting party has submitted evidence to show there are reasonable grounds to suspect subsequent alterations or other justifiable causes. See By-Laws, Article VII.
3. This Certificate should be renewed in name of new owner. For renewal, send this Certificate and \$1.00 to International Measurement Committee, with notation as to change of boat's name, if any.

4. WARNING

Spars, position of keel, or anything else that is not an integral part of the hull, can easily be changed and should not be depended upon. These, as reported on original certificate, serve also as a protection to the purchaser of a new boat, but are subject to remeasurement as noted above.

NOTE — This space is reserved for International Measurement Committee use.

The International Measurement Committee, having examined all facts and figures certified to herein, finds that the yacht herein described conforms with the plans and specifications of the Star Class within the limitations of the measuring rules, and therefore, grants this Certificate to the said yacht subject to the conditions above set forth so long as the owner or owners of the said yacht are members of the International Star Class Yacht Racing Association.

The diagram illustrates the cross-section of a ship's hull, highlighting several key structural features and dimensions:

- FLANGE**: Indicated at the top left, pointing to the upper edge of the hull structure.
- CONTOUR**: A curved line defining the upper profile of the hull.
- "E"**: A horizontal line segment on the left side, likely representing the waterline or a specific structural level.
- AFTER EDGE OF FIN**: A curved line at the bottom left, indicating the trailing edge of the hull's keel.
- K9**: A vertical dimension line on the left side, measuring the height from the after edge of the fin to the top of the hull structure.
- 16"**: A vertical dimension line on the left side, measuring the height from the after edge of the fin to the bottom of the hull structure.
- K4**: A horizontal dimension line across the upper part of the hull, likely representing the width of the deck or a specific structural member.
- K6**: A vertical dimension line on the right side, measuring the height from the bottom of the hull structure to the top of the hull structure.
- K1**: A horizontal dimension line across the middle part of the hull, likely representing the width of the hull.
- K2 (OVERALL)**: A horizontal dimension line across the bottom part of the hull, likely representing the overall width of the hull.
- K8**: A vertical dimension line on the right side, measuring the height from the bottom of the hull structure to the bottom of the hull structure.
- 3"**: Two small vertical dimension lines on the right side, indicating specific heights or clearances.
