Dear Glenn,

I just received your measurement and other certificates for your boat 7880 today. The height of point "B" is listed as 44. On all of the other measurement certificates, the point "B" measurements are usually a 3-digit number in the 400's and 500's. Could you check this again and let me know what the number should be? I can change it before I send it on to John Koopman.

Best regards,

Diane Dorr  
Executive Secretary
