

**Fred Schenkelberg**

# **The State of Reliability Education**

# Basics

# Advanced

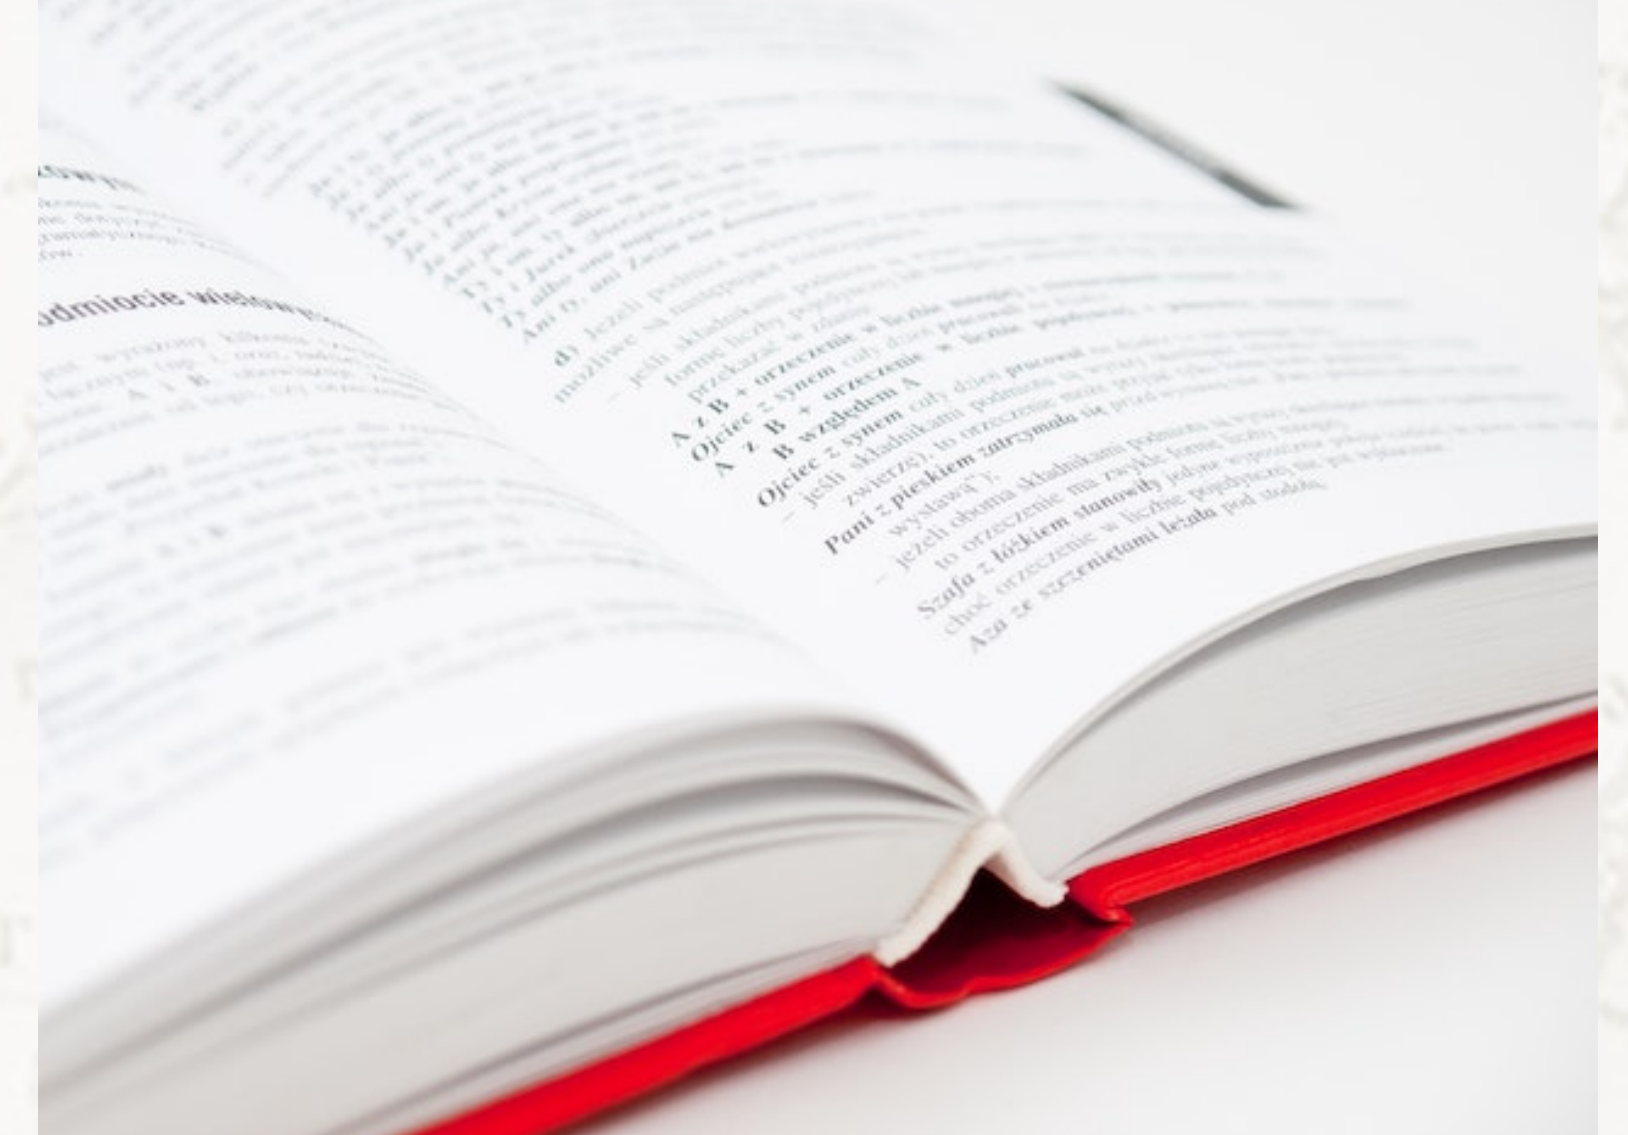

The image shows the interior of a large, historic library. The room features high ceilings, arched windows, and multiple levels of bookshelves. People are seated at long wooden tables, working on laptops and reading. Large, ornate chandeliers hang from the ceiling, and smaller desk lamps are placed on the tables. The overall atmosphere is quiet and studious.

Life Long

What is your favorite  
way to learn?

# Why Learn?

# Skills

## Why Learn?

Kindergarten – we learn to share

later we learn to read & write

Then comes calculus & statistics

Plus, how to communicate well

Then back to sharing

# Opportunities

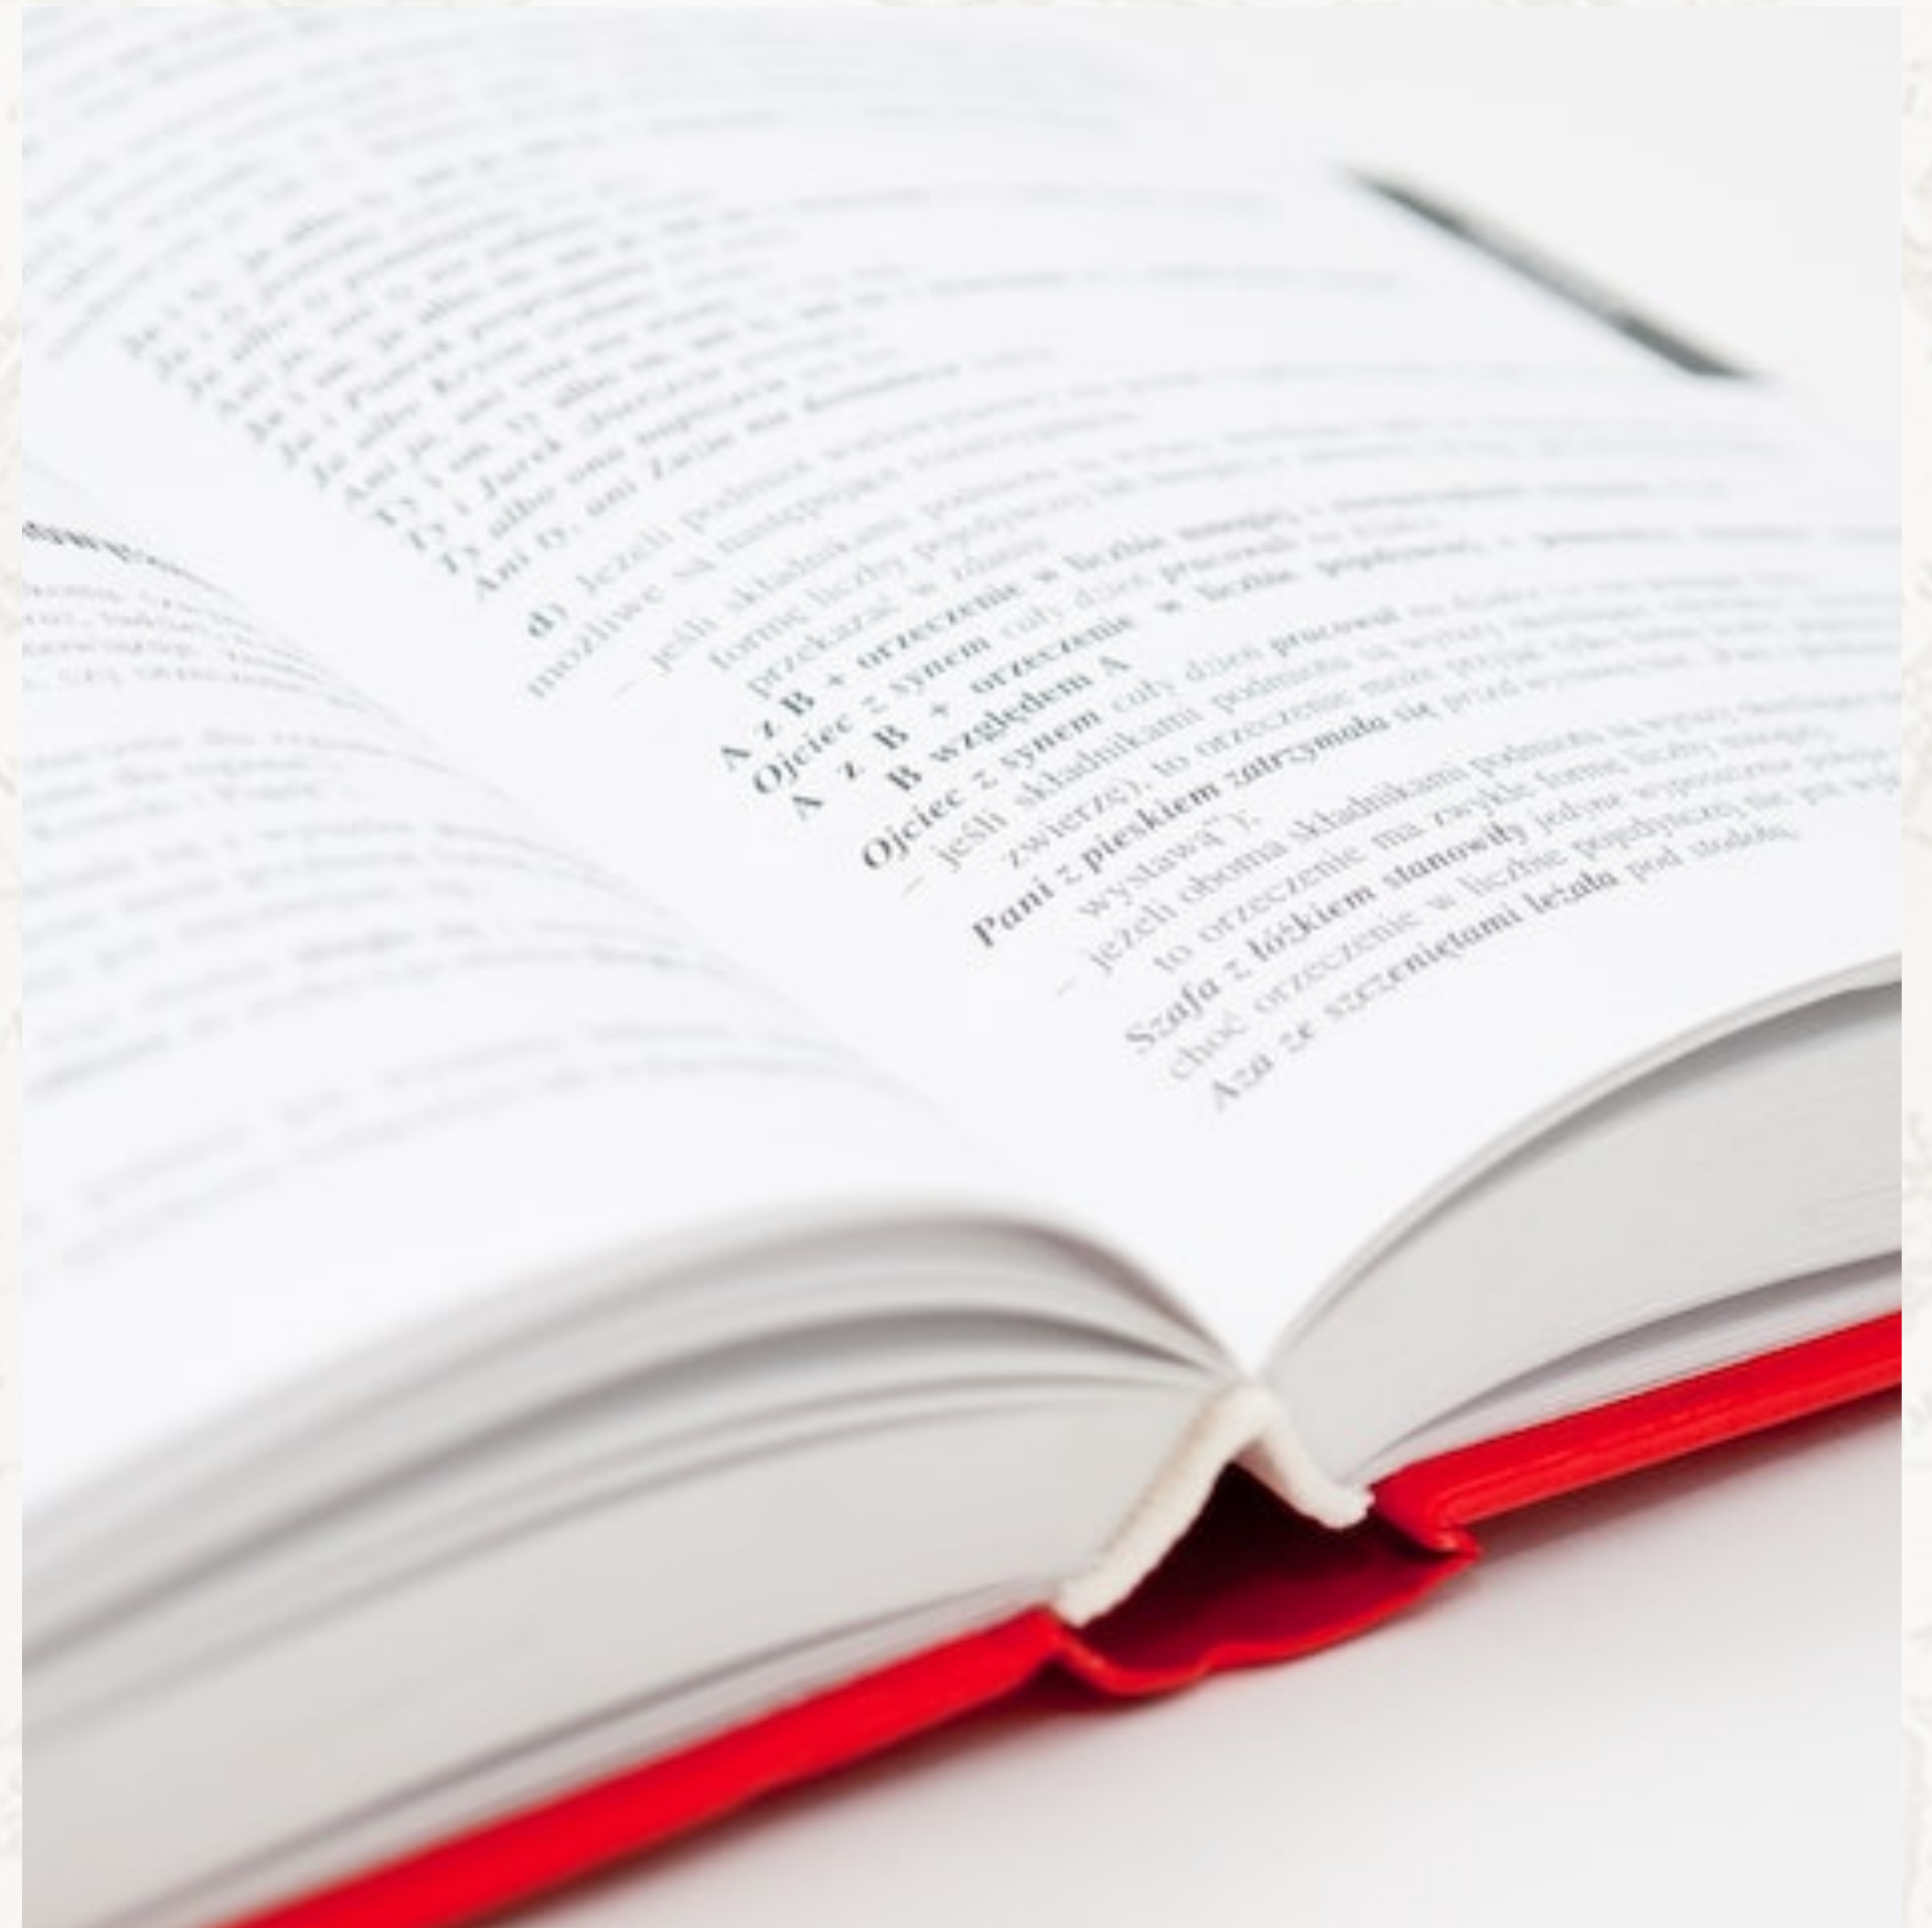

## Why Learn?

The ability to apply learned skills  
leads to more opportunities.

Pursuing hobbies or interests

Changing careers or fields

I suspect that the more one learns,  
the more one can learn.

# Value

## Why Learn?

We trade skills for money

We solve problems

We improve the world

We improve our life
