**pH Range:** 4 to 5  
**Salt Out Temp:** 20° F

### CONDITIONS OF SALE AND WARRANTY

Mar Vista Resources warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Mar Vista Resources neither makes, nor authorizes any agent or representative to make, any other warranties, express or implied, including fitness or merchantability. The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of Mar Vista Resources and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage and use of this material not in strict accordance with directions given herewith. In no case shall Mar Vista Resources or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Mar Vista Resources and is accepted as such by the Buyer.

**WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

**KEEP OUT OF REACH OF CHILDREN**  
**CAUTION: HARMFUL IF SWALLOWED**

### GENERAL INFORMATION

SulfaMar™ 10% Zinc Sulfate solution is intended for agricultural use on a variety of crops. SulfaMar™ 10% Zinc Sulfate solution is suggested for foliar applications to some crops and for soil applications to others. Carefully follow directions for use.

### DIRECTIONS FOR USE

#### FOLIAR APPLICATIONS

DO NOT apply foliar sprays in spring or summer.

**Almonds, Pistachios:** Apply 6-14 gallons SulfaMar™ 10% Zinc Sulfate solution per acre at leaf fall.

**Avocados:** Apply 1-2 gallons product per acre in 50-100 gallons of water.

**Citrus:** Apply 1 gallon product per acre plus 5-8 lbs of lime per 100 gallons of water.

**Walnuts:** Apply 10-15 gallons product per acre at leaf fall.

**Other Deciduous Trees:** Apply 4-8 gallons product per acre at leaf fall.

#### SOIL APPLICATIONS

**Barley, beans, corn, cotton, flax, milo, oats, peas, rice, sugar**

**beets and wheat:** Apply 8-14 gallons SulfaMar™ 10% Zinc Sulfate solution per acre and incorporate into the soil prior to planting.

**Beets, carrots, melons, onions, tomatoes and others:** Apply 8-12 gallons product per acre and incorporate into the soil prior to planting.

**Fertigation Trees (all):** Apply 10-30 gallons product per acre in fall or early spring.
