FirstRate[®]

EPA Reg. No. 62719-275

Special 2(ee) Recommendation[†]
(For Use Only in the State of Ohio)

FirstRate plus Glyphosate for Additional Control of Canada Thistle, Clover, Curly Dock, Dandelion, Horsenettle, Marestalk, Morning Glory (Annual), Prickly Lettuce, Smartweed (Annual) and Wild Carrot in Soybean

ATTENTION

[†]This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA.

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- Read the label affixed to the container for FirstRate[®] herbicide before applying. Carefully follow all precautionary statements and applicable use directions except as specified below.
- Use of FirstRate according to this Section 2(ee) recommendation is subject to all use precautions and limitations imposed by the label affixed to the container for FirstRate.

Directions for Use

For additional postemergence control of Canada thistle, clover, curly dock, dandelion, horsenettle, marestalk (horseweed), morning glory (annual), prickly lettuce, smartweed (annual), and wild carrot in soybean burndown applications and glyphosate tolerant soybeans, apply 0.3 oz per acre of FirstRate plus 3/4 lb acid equivalent of glyphosate found in such glyphosate containing products such as GlyphoMax[®] XRT herbicide, Durango[™] herbicide, Roundup WeatherMAX, Roundup OriginalMax, Touchdown, Touchdown Total, or other glyphosate products. These herbicides must be labeled for use on glyphosate tolerant soybeans.

Refer to the product labels for FirstRate and the glyphosate containing product for additional weeds controlled. Read and follow all applicable directions for use, precautions and limitations.
