42-S Thiram Fungicide
EPA Reg. No. 264-929

For Use On Deciduous Tree Seed

PRODUCT BULLETIN

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF MONTANA

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted by the U.S. Environmental Protection Agency. It is a violation of federal law to use this product in a manner inconsistent with its label. This product bulletin must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product inconsistent with its labeling.

CROP	DISEASE	DOSAGE
Deciduous Tree Seed	To aid in the control of damping-off	6.4 – 9.6 fl. oz. /100 lbs of seed

NOTE: Treat and conduct germination tests on a small portion of the seed before committing the total seed lot to the chemical treatment. Users should verify actual registered rate in country of destination and / or use requirements. This label is based solely on treatment requirements made by countries requiring thiram to be applied to imported deciduous tree seed. Bayer CropScience makes no claims as to the effect of this product on disease control or seed germination. All such risks shall be assumed by the Buyer.

SEED LABELING: Treated seed must be labeled "For Export Only – Not to be sold or offered for sale in the United States". The U.S. Seed Act requires that treated seed be labeled with the following information:

Treated seed must not be used for, or mixed with food or animal feed or processed for oil. Exposed treated seed may be hazardous to birds and other wildlife. Dispose of all excess treated seed and seed packaging by burial away from bodies of water.

For MEDICAL And TRANSPORTATION Emergencies ONLY Call 24 Hours A Day 1-800-334-7577
