

# 7-20-4

## *Very Low Salt Formulation for both Soil and Foliar Applications*

- *Manufactured using premium 100% Orthophosphate and Potassium Acetate.*
- *A slightly acidic pH (6.2-6.7) using WHITE phosphoric (not green) makes 7-20-4 a highly compatible tank mix partner.*
- *Potassium Acetate provides the highest K uptake as well as the safest form for use on plant tissue.*

*Sustainable Solutions*
