Soil Amendment

Guaranteed Analysis

CONTAINS NON-PLANT FOOD INGREDIENTS

Soil Amending Ingredients:

Organic Matter (derived from Leonardite).....9%

Total Other Ingredients:

Aqueous Solution.....91%

Net Contents 2.5 gallons (9.5 liters), 23.5 lbs (10.66 kg)
9.4 lbs. per gallon (1127 grams/liter) @ 68° F

DIRECTIONS FOR USE

Actagro® AC-16 can be applied to most vegetable and cucurbit crops, field and row crops, deciduous fruit and nut trees, grapes, berries, olives, avocados and citrus when used as an additive with recommended fertilizers applied to those crops. Actagro® AC-16 has shown excellent mixing and stability when used as directed. When using Actagro® AC-16 with any compatible fertilizer, the recommended application methods include pre-plant, starter, side dress, fertigation, top dress and soil and banding.

MIXING RATES

When using with CAN-17, calcium thiosulfate, calcium nitrate or CN-9, apply 1-3 gallons/acre of Actagro® AC-16.

Actagro® AC-16 should not be used alone in its concentrated form directly on crops or soil. To use without mixing with a recommended fertilizer, dilute Actagro® AC-16 with water at a rate of between 1 to 3 gallons of Actagro® AC-16 per acre, not to exceed a 3% concentration of Actagro® AC-16 in water. Not all Actagro® products are compatible with one another or when mixed with other fertilizers and/or pesticides on the market. A small scale compatibility test is recommended prior to mixing.

CAUTION: Foliar application of Actagro® AC-16 close to harvest may leave a brown residue on the harvestable portion of the crop. Rainfall, sprinkler irrigation or high humidity should alleviate this condition.

WARRANTY: Since weather, crops, soil and other conditions may vary, neither Actagro®, LLC, nor the Seller make a warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risk of use and handling whether or not in accordance with directions or suggestions.

KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED. AVOID CONTACT WITH SKIN, EYES OR CLOTHING. In case of contact immediately flush skin, eyes or clothing with plenty of water for at least 15 minutes. Use caution when handling.

GENERAL INFORMATION

Actagro® AC-16 is a highly concentrated, proprietary extraction of Organic Matter derived from Leonardite. It is designed specifically to add the benefits of Organic Matter and is compatible with certain liquid fertilizers: CAN-17, Calcium Thiosulfate, calcium nitrate and CN-9. The benefits that Actagro® AC-16 provides for the soil include water holding capacity, high cation exchange capacity (CEC) and tilth.

*Not all Actagro® products are compatible with one another or when mixed with other fertilizers and/or pesticides on the market. A small scale compatibility test is recommended prior to mixing.
