SIGNS AND SYMPTOMS OF OVEREXPOSURE

FAQS

In addition, the U.S. Environmental Protection Agency requires the following precautionary statements on the label of commodity treated seed using treated seed:

do not allow children, pets, or livestock to have access to treated seed;
store away from food and feedstuffs.

USER SAFETY RECOMMENDATIONS

• Do not use this product except as directed on this label or on other Bayer CropScience labels for this product.

The following symptoms may occur:

Common symptoms include:

• Salivation
• Muscle tremors
• Nausea
• Watery eyes
• Difficult breathing
• Vomiting

These symptoms are caused by stimulation of the cholinergic nervous system. Consult a physician if exposure occurs.

Toxic in concentration of diagnosis, urine samples should be obtained within 24 hours of exposure and immediately before. Analyses will be unpaid by Bayer CropScience.

Consultation on therapy can be obtained at all hours by calling the Bayer CropScience emergency number: 1-800-227-7117.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Inconsistent with its labeling.

RestRICTED USE PESTICIDE

Do not use in nurseries or nurseries of food-producing crops or for commercial use.

For use only in Commercial Seed Treatment Equipment

Pesticide DISPOSAL

If these wastes cannot be disposed of by use according to label instructions, dispose of according to state and local regulations. If these wastes cannot be disposed of by use according to label instructions, dispose of according to state and local regulations.

DEGRADATION CAN CAUSE REDUCED

Pesticides and their degradation products may cause injury to wildlife. Be especially careful on or near fish-bearing waters. Follow label instructions to avoid injury to fish.

Read the entire label and observe all label directions and precautions before use.

For Pesticide Use Call 1-888-999-BAYER (1-888-999-2293)

The effects of overexposure are spontaneously and rapidly reversible. Gastric and intestinal symptoms due to stimulation of the cholinergic nervous system. These signs and symptoms occurred.

NOTE TO PHYSICIAN

To the patient to a physician or hospital immediately and SHOW A COPY OF THIS FORM. It is essential to remove all sources of continuing contamination. Remove clothing and contaminated gloves. Wash exposed skin with soap and water. Avoid prolonged contact with the skin. Although the potential for eye injury exists, eye protection is not necessarily required unless the person is actively washing a large area with contaminated material.

Contact a physician immediately in all cases of suspected poisoning. If breathing is difficult, give oxygen. If breathing has stopped, give artificial respiration. Do not attempt to make the person vomit. If vomiting occurs, give nothing by mouth.

ANTIDOTE. See NOTE TO PHYSICIAN.

IN SEVERE CASES, CONVULSIONS, UNCONSCIOUSNESS, AND DEATH CAN OCCUR. USE ATROPINE SULFATE IN ALL CASES. DO NOT USE INTRAVENOUS ATROPINE. DO NOT USE INTRAMUSCULAR ATROPINE. DO NOT USE INTRACUTANEOUS ATROPINE.

For use only in commercial seed treatment equipment.

The active ingredient is 50% 2-PAM (pyridine-2-aldoxime methiodide) as a 2-PAM (pyridine-2-aldoxime methiodide) ethanimidothioate. 

For retail sale only to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator’s Certification.

Do not use othericides that contain chlordane, pyrethroids, or diazinon. Do not use on food or food animals. Do not use on or near food, feed, or oil purposes.

NOTE TO PHYSICIAN: In case of a major spill of AERIS Seed-Applied Insecticide/Nematicide, contact the local state’s Crop Specialist, IPM Coordinator or Extension Nematologist.

Drums, and Kegs (e.g. – Snyder 120 Next Gen, Bonar B120, Top Discharge IBC (e.g. – Schuetz Caged IBC or Snyder Square Stackable 4781), or rinse and either recycle or dispose of the container as follows:

If these wastes cannot be disposed of by use according to label instructions, contact your state or local waste representative at the nearest EPA regional office for guidance.

If necessary, water should be buffered within this range before adding the remaining contents to the mixture. Pressure rinsing the container before final disposal is the responsibility of the user. Portland cement, or colorant that imparts an unnatural color to the seed to help prevent the seed from falling through trash can or other disposal methods if used at time of seed harvest. Thiodicarb is hydrolytically sensitive to degradation of active ingredient. It is essential that before using AERIS Seed-Applied Insecticide/Nematicide in compliance with state’s Crop Specialist, IPM Coordinator or Extension Nematologist. It is impossible to eliminate all risks.

1. Dilute the seed slurry in a sanitary landfill, or by incineration.

2. Completely empty the remaining contents from this container into application equipment or rinsate collection system. Repeat this procedure two more times.

3. Contact a physician immediately and SHOW A COPY OF THIS FORM.

4. Have the product container or label with you when calling a physician or hospital immediately.
PRECAUTIONS RADIATION TREATMENT

IF IN EYES:

- Hold person at the side of the head to help keep open and to avoid self-inflicted injury.
- Wash in running water for at least 15 minutes. If pain persists, call a Poison Control Center or doctor.

IF INHALED:

- Move person to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.
- Consult a Poison Control Center or doctor for further advice.

IF INGESTED:

- Give 1-2 cups of water or milk. Consult a Poison Control Center or doctor for further advice.

Keep out of reach of children. For medical advice, contact a Poison Control Center or doctor immediately.

For more information, call 1-866-BAYER (1-866-229-3743)

PRODUCT USE

It is illegal to use this product in a manner inconsistent with the directions for use on the label.

Please read and follow all label directions and precautions before using this product.

Bayer CropScience is committed to providing the highest quality product to our customers. If you have a problem, we want to hear about it. Please contact us immediately. The information contained in this document is believed to be accurate and correct. However, it is the responsibility of the user to determine the applicability of said information to a specific situation. Bayer CropScience cannot assume responsibility for any improper use of said information or for any violation of Federal, State, or Local laws and regulations.

No warranty expressed or implied is made with respect to this product, its effectiveness, or its safety.

This product is intended for use by or under the direct supervision of a licensed applicator or a licensed applicator trainee. Training in the use of this product is available through your local extension office, state's Crop Specialist, IPM Coordinator or Extension Nematologist.

**FACIAL HYGIENE**

- If irritation occurs or gets worse, notify the physician.

**MOUTH AND SPHINCTERS**

- Do not induce vomiting unless instructed to do so by the physician.

**RESPIRATORY SYSTEM**

- Let air into the lungs by giving mouth-to-mouth respiration.

**INHALATION INHIBITED**

- Get the patient to a physician or hospital immediately and show a copy of this label.

**INHALATION UNINHIBITED**

- Treated seeds exposed on soil surface may be hazardous to birds or other wildlife.

**CUTS AND SCRAPES**

- Treat minor cuts and scrapes with soap and water.

**BURNS**

- Treat minor burns with cool water.

**IN SEVERE CASES**

- Convulsions, unconsciousness, and immediate treatment.

**FIRST AID**

- This product contains a chemical known to the state of California to cause cancer.

**PRECAUTIONARY STATEMENTS**

- Do not exceed a total of 5.4 pounds thiodicarb a.i. (active ingredient) per acre per season for seed treatment applications. In Arizona and California, do not exceed a total of 1.8 pounds thiodicarb a.i. per acre per season for seed treatment applications. Total insecticide use in Arizona and California is limited to a total of 2.7 pounds thiodicarb a.i. (active ingredient) per acre per season for all seed, foliar, and soil applications combined.

**PRODUCT USE**

- For commercial use only. For retail sale to and use only by Certified Applicators or persons under their direct supervision and for no other purpose.

**STORAGE AND DISPOSAL**

- In the event of a seed spill, clean up and dispose of seed packaging and excess treated seed by burial away from bodies of water.

**BRAND NAME**

- AERIS®

**PRODUCT USE**

- For commercial use only. For retail sale to and use only by Certified Applicators or persons under their direct supervision and for no other purpose.
