

AG16098
DEPOSITION AID, CANOPY PENETRATING & DRIFT CONTROL
AGENT for Coarse nozzles
PATENT PENDING

PRINCIPAL FUNCTIONING AGENTS:

Proprietary Surfactant Blend100%

All ingredients are exempt from the requirements of a tolerance in 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN
WARNING

May cause respiratory irritation.

PRECAUTIONARY STATEMENTS

Avoid breathing mist or spray. Use only outdoors or in a well-ventilated area. Store in a well-ventilated place. Keep container tightly closed. Store locked up. Do not reuse container. Dispose of contents in accordance with Federal, state and local regulations. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the web page at www.acrecycle.org. Triple rinse (or equivalent) during mixing and loading.

FIRST AID

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor for treatment advice if you feel unwell.

For Emergency, Spill, Leak, Fire, Exposure, or Accident, Call: CHEMTREC 1-800-424-9300

GENERAL INFORMATION

AG16098 is a unique spray adjuvant, specifically designed to maximize pesticide performance when applying pesticides through nozzles that are classified to produce coarse and ultra-coarse droplet spectrums. **AG16098** reduces the amount of spray droplets that have a high potential to move off target in a ground application. **AG16098** should be used in conjunction with proper spray equipment selection set-up and use including boom height, nozzle type, size and pressure. Along with good judgment and the proper selection and use of spray equipment, **AG16098** can help professional applicators ensure the maximum performance of pesticides.

DIRECTIONS FOR USE

AG16098 may be used when spraying pesticides in a ground application through nozzles that deliver a droplet spectrum that is categorized as coarse to ultra-coarse.

Rates of application

AG16098 may be used at a rate of 0.5% v/v.

Mixing Instructions

Add **AG16098** after pesticides or other adjuvants are added but prior to complete filling of the spray tank. Continue agitation or follow specific tank mix filling and mixing information provided on the herbicide label. Refer to other pesticide labels for additional recommendations or precautions.

Before mixing pesticides with **AG16098**, conduct a jar test to determine compatibility. Do not mix **AG16098** with Class Act® Ridion® or other products in an induction system or container when all of the products are undiluted.

For Direct Injection: **AG16098** can be applied through injection systems where **AG16098** is added to one of the system's chemical injection tanks. An in-line mixing chamber is recommended.

- Step 1 Add **AG16098** to the chemical injection tank.
- Step 2 Pump the correct amount of **AG16098** into the line.
- Step 3 Pump the proper amount of water, pesticide, and other adjuvants into the line for mixing with **AG16098** and chemicals before going into the spray boom.

Notice of Warranty

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
