Eye : Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, call a doctor or poison control center.

Skin : Wash with plenty of water. Call a poison control center or doctor if you feel unwell. Immediately take off contaminated clothing and wash before reuse.

Inhalation : Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Ingestion : Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth if unconscious.

Indication of Immediate Medical Attention and Special Treatment Needed : In the event of an adverse response, treatment should be directed toward control of the symptoms.

- Extinguishing Media** : Use water fog, foam, dry chemical or carbon dioxide.
- Specific Hazards Arising from the Chemical** : Emits oxides of carbon and nitrogen and sulfur, hydrogen chloride, hydrogen fluoride and halogen derivatives.
- Special Fire Fight Proc** : Wear self-contained breathing apparatus and full protective equipment. Evacuate area and fight fire upwind a safe distance to avoid hazardous vapors and decomposition products. Use as little water as possible and use spray or fog to prevent runoff.

6. Accidental Release Measures

- Personal Precautions** : Isolate the hazard area and keep unnecessary and unprotected personnel from entering spill area.
- Protective Equipment** : Splashproof goggles or face shield, impervious gloves, long-sleeved shirt and long pants, shoes plus socks. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
- Emergency Procedures** : Clean up spills immediately. Keep the spill out of all sewers and open bodies of water.
- Methods and Materials for Containment and Cleanup** : Dike and contain the spill with inert material (sand, earth, etc.) and transfer liquid and solid diking material to separate containers for disposal.

7. Handling and Storage

- Precautions for Safe Handling** : Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Conditions for Safe Storage** : Store product in original container only, away from other pesticides, fertilizer, food or feed. Do not contaminate water, food or feed by storage, handling or disposal.

8. Exposure Controls / Personal Protection

- TLV/PEL** : No information found
- Appropriate Engineering Controls** : Good general ventilation should be sufficient.
- Personal Protective Equipment** : Splashproof goggles or face shield, impervious gloves, long-sleeved shirt and long pants, shoes plus socks. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
