

organic **aquasap**

100% pure seaweed extract powder

fertilizer

stronger roots
higher yield

Grade 0-0-35

100% soluble pure seaweed extract powder
derived from *Kappaphycus alvarezii*

Net Weight: 1lb (454 grams)

organic **aquasap**

100% pure seaweed extract powder
fertilizer

AQUASAP is the most versatile and easy-to-use seaweed on the market. AQUASAP is a 100% soluble natural extract powder made from pure extract of the sea plant, *Kappaphycus alvarezii*. AQUASAP provides an available source of potassium that can help to promote strong reproduction, fruit fill and finishing quality, including size and flavor.

BENEFITS TO YOUR PLANTS*

Increase in Yield
Improved Seed Germination
Natural Soil Conditioning
Strong Root System
Greater Resistance to Stress

100% SOLUBLE
pH Range: 6.5-7.5

Guaranteed Analysis 0-0-35

Soluble Potash (K_2O) 35%

Derived from: sea plant *Kappaphycus alvarezii*

DIRECTIONS FOR USE

AQUASAP Seaweed Extract Powder is most effective when applied as part of a comprehensive fertilizer program. It can be used for seed coating and in root dip, seedling drench, foliar and fertigation solutions.*

Dissolve AQUASAP in water before adding to other solutions. When creating solutions, use only clean, fresh water and agitate to dissolve completely.

Store at room temperature and use immediately upon dilution.

CAUTION: Keep out of reach of children.

RATES AND INTERVALS

SEED SOAK or ROOT DIP: Soak seeds or dip roots in a solution of 0.9 ounces per 2 gallons of water (do not exceed 1 ounce in any case).

FOLIAR SPRAY: Apply a solution of 0.5 pounds dissolved in a minimum of 20 gallons of water, three times per season. If more water is required, do not exceed 1 pound per acre per application.

DRIP IRRIGATION or FERTIGATION: Apply once per crop cycle, up to three times per season, at a rate of 0.5 – 1 pound per 20 gallons of water.

Refer to www.aquasapseaweed.com for specific crop recommendations.

* Perform a jar compatibility test before mixing with other materials.
