ABACUS® Agricultural Miticide/Insecticide

For Agricultural or Commercial Use Only

EPA Reg. No. 83100-4-83979

This recommendation is permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA

2(ee)
Recommendation

FOR USE AND
DISTRIBUTION ONLY
IN
CALIFORNIA

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

RECOMMENDATION FOR USE OF A SPRAY ADJUVANT/ADDITIVE FOR MIXING WITH ABACUS AGRICULTURAL MITICIDE/INSECTICIDE ON TREE CROPS AND CITRUS:

Stone Fruit, Nut Crops, Pome Fruits, Avocados and Citrus

DIRECTIONS FOR USE:

In addition to the label recommendations for the use of a Horticultural Spray Oil (not a dormant oil) with Abacus Agricultural Miticide/Insecticide on tree fruit and citrus, use under this Section 2(ee) recommendation allows use of a spray adjuvant/additive that is approved for use on the listed crops. The spray adjuvant/additive selected must have spreading and penetrating properties that will allow maximum leaf uptake.

RESTRICTIONS:

Follow the Directions for Use and Precautions on the spray adjuvant/additive label and those printed on the Abacus Agricultural Miticide/Insecticide container label.

If applications are made without a Horticultural Spray Oil or a spray adjuvant having spreading and penetrating properties to allow maximum leaf uptake, reduced efficacy and/or reduced residual control may result.

ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA REGISTERED LABELS ARE TO BE FOLLOWED.

THIS LABELING MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF PESTICIDE APPLICATION.
