

RESTRICTED USE PESTICIDE

TOXIC TO FISH, MAMMALS, AND AQUATIC ORGANISMS FOR RETAIL SALE TO AND USE ONLY BY CERTIFIED APPLICATORS OR PERSONS UNDER THEIR DIRECT SUPERVISION AND ONLY FOR THOSE USES COVERED BY THE CERTIFIED APPLICATOR'S CERTIFICATION.

ABAMECTIN GROUP 6 INSECTICIDE

For distribution and use only within the
state of OREGON

FIFRA Section 24(c) Special Local Need Label (SLN)

This label is valid until December 31, 2027 or until otherwise amended, withdrawn, cancelled, or suspended.

FOR CONTROL OF SPIDER MITES IN ALFALFA GROWN FOR SEED

Abba Ultra Miticide/Insecticide

EPA REG. NO. 5481-621

EPA SLN NO. OR-180004

ACTIVE INGREDIENT: % BY WT.

Abamectin: 3.74%

OTHER INGREDIENTS: 96.26%

TOTAL: 100.00%

Contains 0.3 lb abamectin per gallon

**KEEP OUT OF REACH OF CHILDREN
WARNING/AVISO**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail).

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from target areas. Do not contaminate water when disposing of equipment wash water or rinsate. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

Use of this product may pose a risk to threatened and endangered species of fish, amphibians, crustaceans (including fresh water shrimp), and insects.

This product may impact surface water quality due to runoff of rain water. This is especially true for poorly draining soils and soils with shallow ground water. This product is classified as having a medium potential for reaching both surface water and aquatic sediment via runoff for several weeks to months after application. A level, well maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential loading of abamectin from runoff water and sediment.

Runoff Prevention

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

DIRECTIONS FOR USE

RESTRICTED USE PESTICIDE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This Special Local Need (SLN) label and the main EPA-registered label for Abba Ultra, EPA Reg. No.

5481-621, must be in the possession of the user at the time of application.

Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on this SLN label and the main EPA-registered label.

Apply Abba Ultra to alfalfa grown for seed when spider mites first appear. Do not apply a second application within 21 days of the first treatment. Only make a second application after an alternative miticide with a different mode of action has been used.

APPLICATION INSTRUCTIONS

Ground Application:

Apply 4-8 fl oz/A of Abba Ultra (0.014-0.019 lb ai/A) by ground application in a minimum of 20 gallons of water per acre.

Aerial Application:

Apply 6-8 fl oz/A of Abba Ultra (0.014-0.019 lb ai/A) by aerial application in a minimum of 10 gallons of water per acre.

For use under this SLN label, do not apply this product through any type of irrigation system.

RESTRICTIONS

- Do not apply more than 2 applications of Abba Ultra or any other foliar-applied product containing abamectin per year.
- Do not apply more than 8 fl oz/A (0.019 lb ai/A) of Abba Ultra or any other foliar-applied product containing abamectin per application.
- Do not apply more than 16 fl oz/A (0.038 lb ai/A) of Abba Ultra or any other foliar-applied product containing abamectin per year.
- Apply Abba Ultra in accordance with the Spray Drift and Spray Drift Management sections of the main EPA-registered label.
- This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. Apply in the evening after bees have stopped foraging or in early morning before bees begin foraging.

Special Crop Use Restrictions

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that use of this product according to this labeling is deemed a non-feed/non-food use by the Oregon Department of Agriculture, and is regulated by the **Oregon Administrative Rule (OAR) 603-057-0535, Pesticide Use On Crops Grown For Seed**. If the applicator of this pesticide is not the producer, the applicator must provide a copy of this labeling to the producer of the crop.

Producers of this crop who use this product, or cause the product to be used on a field they operate, must provide a copy of this pesticide label to the seed conditioner.

This pesticide does not have an established pesticide residue tolerance for this crop. Consequently, no portion of this seed may be used or distributed for food or feed for 1 year (365 days) after the last application of this product.

This restriction pertains to, but is not limited to, green chop, forage, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble or regrowth. All seed screenings shall be disposed of in such a manner that screenings cannot be distributed or used for food or feed purposes, as indicated in **OAR 603-057-0535**. Additional regulations concerning seed screenings are stated in **OAR 603-057-0535**.

Any seed from a field treated with this pesticide product shall bear specific and conspicuous container labeling, or if shipped in bulk, on the shipment invoice or bill of lading. The labeling shall contain the following statement:

"This seed was produced using one or more products for which the United States Environmental Protection Agency has not established pesticide residue tolerances. This seed, in whole, as sprouts, or in any form may not be used for human consumption or animal feed. Failure to comply with this condition may violate requirements of the Federal Food and Drug Administration, the Oregon Department of Agriculture and other regulatory agencies."
