

AccuDrop®

DEPOSITION AID, CANOPY PENETRATING & DRIFT CONTROL AGENT PLUS SURFACTANT

PRINCIPAL FUNCTIONING AGENTS:

Blend of high content of unsaturated fatty acid and low content of rosin acids, mixture of glycerol polyethylene glycol ricinolate with fatty acid esters of polyethylene glycol,

and alcohol ethoxylate98.0%

CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT2.0%

TOTAL.....100.0%

Surfactant Content 35%

All ingredients are exempt from the requirement of a tolerance in 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes eye irritation.

PRECAUTIONARY STATEMENTS

Wash face, hands and any exposed skin thoroughly after handling and before eating, drinking, using tobacco, or using the toilet.

Personal Protective Equipment (PPE): Wear eye and face protection.

FIRST AID

IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation occurs get medical attention.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. In case of medical emergency, call toll free 1-877-424-7452.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

Storage: STORAGE ABOVE 40°F is recommended. If product is stored below 40°F, warm and agitate (recirculate) prior to use. Store in a cool, dry and well-ventilated area away from children, food and feed products. Store away from open flames, hot surfaces and sources of ignition. Keep container tightly closed.

Disposal: Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Dispose of contents/container in accordance with Federal, state and local regulations. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the web page at www.acrecycle.org.

GENERAL INFORMATION

AccuDrop is a spray adjuvant designed to maximize performance of herbicides, insecticides and fungicides by improving deposition of the spray application onto the intended target, improving coverage and droplet adhesion and reducing drift when applied by ground or air. AccuDrop does not include NPE and is not MSO-based for improved crop safety with many pesticide applications. AccuDrop does not negatively affect spray pattern even when using air-assisted type nozzles. AccuDrop should be used in conjunction with proper spray equipment selection set-up and use including boom height, nozzle type, size and pressure. Along with good judgment and the proper selection and use of spray equipment, AccuDrop can help professional applicators ensure the maximum performance of herbicides, insecticides and fungicides.

DIRECTIONS FOR USE

For use with Herbicides, Insecticides and Fungicides. NOT FOR AQUATIC USE IN CALIFORNIA AND WASHINGTON.

Prior to use, read and follow all directions on this label and on the label of the tank mix partner(s). The tank mix partner's label for specific usages and restrictions have precedence over the DIRECTIONS FOR USE referred to on this label.

Recommended Rate of AccuDrop

3 fluid ounces per acre

Mixing Instructions

Add AccuDrop after herbicides, insecticides and fungicides or other adjuvants are added but prior to complete filling of the spray tank. Continue agitation or follow specific tank mix filling and mixing information provided on the tank mix partner(s) label. Refer to the tank mix partner(s) label for additional recommendations or precautions pertaining to tank-mixing.

Before mixing AccuDrop with other products, conduct a jar test to determine compatibility.

For Direct Injection: AccuDrop can be applied through injection systems where AccuDrop is added to one of the system's chemical injection tanks. An in-line mixing chamber is recommended.

- Step 1 Add AccuDrop to the chemical injection tank.
- Step 2 Pump the correct amount of AccuDrop into the line.
- Step 3 Pump the proper amount of water, herbicide, insecticides and/or fungicides, and other adjuvants into the line for mixing with AccuDrop and chemicals before going into the spray boom.

NOTICE OF WARRANTY

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
