

All Day N™

CONTAINS NON-PLANT FOOD INGREDIENTS

Contains 2.1 trillion colony forming units (CFU) per gallon of the following:

Paenibacillus azotofixans.....5.5 x 10⁸ CFU/ml

F3445

GENERAL INFORMATION

All Day N™ contains bacterium derived from a specifically selected pure strain of microbe cultured in an oxygen-enriched process. This product can be blended with conventional fertilizers and soil amendments, injected through irrigation systems, and/or impregnated onto dry fertilizer. The specific microbe in this product improves soil biodiversity and enhances nutrient mineralization from the atmosphere. All Day N should be used as part of a comprehensive system for optimizing soil/nutrient conditions for plant growth, development, yield and quality.

DIRECTIONS FOR USE

Recommended for all row crops and cereal grains including, but not limited to, corn, cotton, canola, rice, sorghum, soybeans and wheat.

This product can be blended with liquid fertilizers and soil amendments to be applied in ground application equipment and through fertigation equipment.

Consult your local agronomist for rates specific to your crop and conditions.

IN-FURROW OR 2X2 STARTER: Apply 1 pints per acre.

SIDEDRESS OR BROADCAST: Apply 1-2 pints per acre.

FERTIGATION: Apply 1-2 pint per acre

FOLIAR: Apply 1-2 pints per acre in enough solution to provide thorough coverage.

COMPATIBILITY: All Day N is not compatible with strong acid fertilizers. To reduce the risk of incompatibility, always jar test new combinations before field mixing.

EXPIRATION DATE: Use before date shown on container, as the microbial inoculant may begin to lose effectiveness.

PRECAUTIONARY STATEMENTS

KEEP OUT OF REACH OF CHILDREN

Based on currently available data, this product is not classified as a GHS hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling. Refer to the Safety Data Sheet if first aid instructions are needed.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Do not store at temperatures over 110°F. Do not store in direct sunlight for longer than 2 weeks. Store in original container only and keep tightly sealed when not in use. Store away from incompatible materials. Dispose of contents/container in accordance with federal, state and local regulations.
