FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted by the U.S. Environmental Protection Agency. It is a violation of federal law to use this product in a manner inconsistent with its label. This product bulletin must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product inconsistent with its labeling.

CROP	Rate of Allegiance FL	Remarks
Soybean	0.2 – 1.5 fl oz./cwt	Application of Allegiance to soybeans at a rate of 0.2 fl oz/cwt to 1.5 fl oz/cwt provides protection against Phytophthora seedling blight with the lowest use rate offering protection from planting until emergence. Increasing the use rate of Allegiance will provide both increased levels of control along with a longer time of activity. A use rate of 0.75 to 1.5 fl oz/cwt of Allegiance on soybeans is required for acceptable control of Phytophthora.

Use of this product according to this bulletin has not been reviewed or endorsed by the Indiana State Chemist Office.
