

OSS / NIS SURFACTANT

NONIONIC ORGANOSILICONE WETTING AGENT

PRINCIPAL FUNCTIONING AGENTS (BY WT.):

Polyalkylene Modified Heptamethyltrisiloxane and nonionic surfactants	89.0%
Coupling agents	10.0%
Constituents ineffective as a spray adjuvant	1.0%
TOTAL	100%

CA Reg. No.: 81927-50002-AA

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN WARNING

GHS HAZARDS: May be harmful if swallowed. May be harmful in contact with skin. May cause an allergic skin reaction. Causes eye irritation.

GHS PRECAUTIONS: Keep out of reach of children. Read label before use. Keep container tightly closed. Keep only in original container. Avoid breathing dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the work place. Wear protective gloves/ protective clothing/ eye protection/ face protection. **IF SWALLOWED:** Call a POISON CENTER or doctor/physician if you feel unwell. **IF ON SKIN:** Wash with plenty of soap and water. **IF INHALED:** If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

Have the product container with you when calling a poison control center or doctor, or going for treatment.

EYE CONTACT - IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue cautiously rinsing eye. Have the product container with you when calling a poison control center or doctor, or going for treatment. If eye irritation persists: Get medical advice/attention.

SKIN CONTACT - IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash skin immediately with plenty of water for 15-20 minutes. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice. If skin irritation occurs: Get medical advice/attention.

INGESTION - IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person. Immediately call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice.

INHALATION - IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a comfortable position for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

**FOR AGRICULTURAL OR PROFESSIONAL USE ONLY.
NOT FOR AQUATIC USE.**

GENERAL INFORMATION

ALLIGARE OSS / NIS SURFACTANT is a superior nonionic wetting agent designed for water based herbicide application in agriculture, horticulture, industrial, turf and forestry operations. It is designed for fast spreading, uniform distribution and absorption of spray on leaf and stem surfaces. **ALLIGARE OSS / NIS SURFACTANT** may be used with most pesticides and fertilizer products. Optimum application and consequent effects can be influenced by many factors. It is recommended that the spray be observed and adjuvant rates be adjusted accordingly. During application, insure thorough coverage without excessive runoff.

DIRECTIONS FOR USE

ALLIGARE OSS / NIS SURFACTANT is a nonionic organosilicone wetting agent designed for use in certain agricultural and horticultural uses where a nonionic surfactant is recommended. Suggested Rates for the use with various categories of chemicals are as follows:

Chemical Group

	Ounces of ALLIGARE OSS/NIS SURFACTANT*
Insecticides, Miticides & Fungicides	6 - 32 oz.
Herbicides	12 - 64 oz.
Glyphosate formulations without added surfactants	12 - 64 oz.
Defoliants & Desiccants	12 - 64 oz.
Fertilizers & Micronutrients	4 - 32 oz.

*per 100 gal. of spray mixture

NOTE: Carefully read and follow the specific directions contained on the label of the chemical used. Before adding **ALLIGARE OSS / NIS SURFACTANT** to spray tank mixes or before using with a pesticide or fertilizer where a nonionic adjuvant is not specifically recommended but not prohibited by the manufacturer, the user or application advisor must have experience with the combination or must have conducted a phytotoxicity trial of their own. For local recommendations, consult a competent agricultural authority.

Aerial Application: When applying aerially, follow pesticide label directions including minimum water volume per acre. Do not substitute **ALLIGARE OSS / NIS SURFACTANT** for water required by the pesticide label.

Irrigation Injection: Applications of **ALLIGARE OSS / NIS SURFACTANT** through irrigation injection systems are possible provided the recommended use rates and dilutions are maintained and local, state, and federal guidelines are followed.

ALLIGARE OSS / NIS SURFACTANT is also recommended for use with non-selective herbicides and other pesticides including those used to desiccate or defoliate.

Water Penetration of Hard-to-Wet Soils: For most efficient water penetration of hard-to-wet soils and the even distribution of applied moisture, use 1 pint per 100 gallons of water as a spot or area treatment.

MIXING

Spray mixing and application equipment must be cleaned according to cleaning directions on prior pesticide label before application.

To minimize and help prevent foaming, fill tank 2/3 to 3/4 full of water. Add pesticides and/or fertilizers as directed by label or in the following sequence: 1) Micronutrients and fertilizer; 2) Dry flowables and dispersible granules; 3) Flowables; 4) Water soluble pesticides; 5) Emulsifiable concentrates.

While agitating, add **ALLIGARE OSS / NIS SURFACTANT** and mix for 1 to 2 minutes with lower than normal agitation. Continue filling tank maintaining minimal agitation. For most effective results, apply within 36 hours after mixing.

STORAGE AND DISPOSAL

Storage: Do not store near heat or open flame. Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

Disposal: Do not contaminate water, food or feed by storage or disposal. Dispose of contents / container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycling visit the ACRC web page at www.acrcycle.org.
