

AnchorTM Pro

Drift Retardant/Deposition Aid

KEEP OUT OF REACH OF CHILDREN

CNI
Ag Independent Retailers

ANCHOR™ PRO

DRIFT RETARDANT/DEPOSITION AID

PRINCIPAL FUNCTIONING AGENTS

Polyvinyl Polymer (Polyacrylamide)	1%
Formulation aids and antifoam	99%
TOTAL	100%

All ingredients are approved for use under 40 CFR 180

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

If medical advice is needed, have product container or label at hand. Read label before use.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers should wear protective eyewear, chemically impervious gloves, long-sleeved shirt, pants, socks and shoes to minimize skin contact. Consult the SDS for further information.

FIRST AID

- If Swallowed:** Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.
- If In Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
- If On Skin:** Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention.
- If Inhaled:** Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

GENERAL INFORMATION

Anchor Pro is a low-foaming drift reduction agent and deposition aid that minimizes drift by increasing droplet size to provide a more accurate spray pattern.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND, RIGHTS-OF-WAY AND OTHER APPROPRIATE USES.

DIRECTIONS FOR USE

The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using **Anchor Pro**, the applicator or crops advisor must have experience with the pesticide combination, including **Anchor Pro**, or must have conducted a phytotoxicity test. Excessive use rates of **Anchor Pro** will cause a thickened or stringy solution. Dilution with water and at least 1 hour of continuous recirculation will help correct this condition. SHAKE WELL BEFORE USING.

USE RATES

Ground Applications: Apply **Anchor Pro** at 0.5–3 quarts per 100 gallons of spray solution (0.125–0.75% v/v) or 0.5–3 liters per 400 liters of spray solution.

Aerial Applications: Apply **Anchor Pro** at 1–5 quarts per 100 gallons of spray solution (0.25–1.25% v/v) or 1–5 liters per 400 liters of spray solution. Always start with the lower dosage and increase as needed to address specific spray conditions. If spray fines are not eliminated, add additional quantities of **Anchor Pro** in 8 ounce increments until desired results are achieved.

MIXING

In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:

1. Compatibility agent and/or antifoam, if needed
2. AMS, dry formulations (W/P, DF, WDG, SP), and dry drift retardants
3. Dry soluble and suspension fertilizers / micronutrients
4. Liquid drift retardants and flowable formulations (F & FL)
5. Liquid concentrates, suspension concentrates, microencapsulated and capsule suspension (LC, SC, ME, CS)
6. Emulsifiable concentrates (E, EL or EC)
7. Solutions and soluble liquids (S or SL)
8. Liquid micronutrients and fertilizers
9. Water conditioners and other adjuvants (COC, HSOC, MSO, NIS)
10. Finish filling to desired spray volume level and continue agitation

STORAGE AND DISPOSAL

Store in original container, in a cool, dry, well ventilated and secure area. Keep container tightly closed and sealed when not in use. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

CONDITIONS OF SALE

Seller warrants that this material conforms to its chemical description and is reasonable fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty included and other express or implied warranty of Fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
