

ANTI-FOAM

DEFOAMING AGENT

PRINCIPAL FUNCTIONING AGENTS

Dimethylpolysiloxane.....	10.0%
Constituents ineffective as spray adjuvant.....	90.0%
Total.....	100.0%

All ingredients are exempt from tolerance requirements under CFR 40, 180.1001.

WARNING

KEEP OUT OF REACH OF CHILDREN

Precautionary Statements: May Cause Eye Irritation. May Cause Skin Irritation.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush immediately with water for 15 minutes. Obtain medical attention if irritation develops. **IF ON SKIN:** Remove contaminated clothing. Wash with soap and water. Get medical attention if irritation develops.

GENERAL INFORMATION

Anti-Foam is an effective, easy to use, high strength defoaming agent. **Anti-Foam** should be added to the solution before the pesticide or any other adjuvant is mixed into the solution. If **Anti-Foam** is added after foam is forming it may require a higher use rate to control foaming.

NOTE: The effective concentration of **Anti-Foam** depends directly on temperature, composition, viscosity, agitation and other conditions: therefore rates may require adjustment for the most effective dosage.

DIRECTIONS FOR USE

This product is intended for use with pesticides that are labeled for agricultural, forestry, right-of-way and non-cropland uses. Not for aquatic use.

Recommended Use Rates:

Add 1/2 to 1 ounce per 100 gallons of spray solution. The amount of **Anti-Foam** may be adjusted according to individual conditions. If foam develops after the fluid spray solutions level drops, stop agitation and add the recommended dosage of **Anti-Foam**. If foaming develops in urea water solutions it may be necessary to use as much as 2 ounces of **Anti-Foam** per 100 gallons of water.

Environmental Hazards:

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

STORAGE

This product will thicken further in cold weather and become difficult to remove from the container. Freezing will not have an adverse effect on product performance, however, freezing may cause separation. Warming and shaking the container will restore the material to its normal consistency.

DISPOSAL

Do not reuse this container. Do not contaminate water, food, or feed by storage or disposal. Dispose of container in a safe manner in accordance with federal, state, local and tribal regulations.

NOTICE

CONDITIONS OF SALE 1. **Genesis Agri Products, Inc.** warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. **Genesis Agri Products, Inc.** neither makes, nor authorizes any agent or representative to make any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond **Genesis Agri Products, Inc.** control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by **Genesis Agri Products, Inc.** under 1 above) resulting from handling, storage, and use of this chemical.
