**EPA Reg. No. 100-1324-5905**

**For Control of Tar Spot on Corn**

### **DIRECTIONS FOR USE**

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.
- The user should have this recommendation in its possession at the time of use.
- Use of this product according to this bulletin has not been reviewed or endorsed by the Office of the Indiana State Chemist.
- This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.

For control of tar spot (*Phyllachora maydis*) apply 10.5 fl oz/A of Avaris 2XS either as an early application timing at the V4-V8 growth stages or apply 10.5 - 14 fl oz/A as a late-season application. Under heavy disease pressure or if conditions are favorable for disease, apply Avaris 2XS at 10.5 fl oz/A (early-season) and Avaris 2XS at 10.5 – 14 fl oz/A (late-season).

Do not make more than two applications of Avaris 2XS or other Group 3 or 11 fungicides before alternation with a fungicide that is not in Group 3 or 11.

Follow all other directions for use, restrictions and precautions given on the Avaris 2XS Section 3 label.
