

Axe™

Penetrant / Drift Reduction Agent / Deposition Aid / NPE Free

PRINCIPAL FUNCTIONING AGENTS

Methylated seed oil, copolymer of alpha- and beta-pinene,
2-ethylhexanol, ethoxylated, propoxylated.....100%
TOTAL.....100%

All ingredients are exempt from a tolerance as specified in 40 CFR 180

KEEP OUT OF REACH OF CHILDREN
WARNING
CAUSES SERIOUS EYE IRRITATION.

PRECAUTIONARY STATEMENTS

Wash thoroughly after handling. Wear protective gloves and eye/face protection.

FIRST AID

IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

IF SWALLOWED: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

IF INHALED: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

IF ON SKIN OR CLOTHING: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.

GENERAL INFORMATION

Axe is a NPE free deposition and drift management agent specifically designed to suppress off-target drift of spray applications.

Axe improves the uniformity and density of spray droplets and is particularly beneficial in aerial applications.

Axe maximizes deposition by increasing droplet size and maintaining a more uniform spray pattern.

Axe can be used with air assist and conventional spray nozzles.

DISCLAIMER OF WARRANTIES: Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. This warranty is expressly in lieu of all other warranties and representations expressed, implied, or statutory, including warranties of merchantability and fitness for a particular use. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.

DIRECTIONS FOR USE

NOT FOR AQUATIC USE

Always read and follow label instructions of accompanying pesticide product.

Add Axe after pesticides or other adjuvants are introduced to spray mixture but prior to completing the filling of the spray tank. Before making large scale applications, conduct a jar test containing all ingredients to confirm compatibility.

AERIAL AND GROUND APPLICATION RATES

Herbicides	3-4 ounces in 5-25 gallons per acre spray rate
Fungicides & Insecticides*	2-3 ounces in 5-25 gallons per acre spray rate

*For spray volumes less than 5 gallons per acre, do not exceed 2 quarts of Axe per 100 gallons of total spray.

DIRECT INJECTION RATES

Herbicides	3-4 ounces in 5-25 gallons per acre spray rate
Fungicides & Insecticides	2-3 ounces in 5-25 gallons per acre spray rate

DIRECT INJECTION

Axe can be applied through injection systems when added to one of the system's chemical injection tanks. An in-line mixing chamber is recommended.

- First, add Axe to the chemical injection tank;
- Second, pump the correct amount of Axe into the line;
- Third, pump the proper amount of water, pesticide, fertilizer and other adjuvants into the line, for mixing with Axe and chemicals, before going into the spray boom.

STORAGE, DISPOSAL & SPILL

Do not contaminate water, food or feed by storage or disposal of this product.

Storage: Do not freeze! Store above 25°F. Store in original tightly closed container in a dry, well ventilated area, away from excessive heat and incompatibles. Do not store in iron, copper or aluminum containers or equipment. Do not store with food, feed or other material to be used or consumed by humans or animals. Do not contaminate water supplies.

Disposal: Triple pressure rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrecycle.org. Do not contaminate water sources by cleaning of equipment or disposal of wastewaters. Dispose of contents and container in accordance with local and national regulations.

Spill: In the event of a major spill, fire or other emergency, call CHEMTREC at (800) 424-9300.

Fire: In case of fire, use alcohol resistant foam, CO₂, powder or water spray to extinguish.

DO NOT ALLOW PRODUCT TO FREEZE!
