

# BARK OIL BLUE

## LOW VOLUME BASAL BARK ADJUVANT

### PRINCIPAL FUNCTIONING AGENTS:

Aliphatic Oil and constituents ineffective as an adjuvant ..... 100%  
TOTAL ..... 100%

## KEEP OUT OF REACH OF CHILDREN

# DANGER

**Precautionary Statements:** May be fatal if swallowed and enters airways. Do not breathe dust/fume/gas/mist/vapours or spray. Wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product. **Environmental Precautions:** Prevent further leakage or spillage if safe to do so. Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not allow to enter drains, sewers, or watercourses.

**Personal Protective Equipment:** Wear protective gloves/protective clothing/eye protection/face protection.

**FIRST AID: If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do NOT induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

**FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT CALL: 1-866-944-8565.**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

## GENERAL INFORMATION

BARK OIL BLUE is engineered for low-volume basal bark and stump treatments and is used only with oil-miscible woody plant herbicides with labels that permit dilution with oil. Follow all use directions and precautions on the label of the herbicide being used. BARK OIL BLUE remains effective at below freezing temperatures.

## DIRECTIONS FOR USE

Follow the directions on all pesticide labels.

Use only if a low volume basal oil is allowed or not excluded on the pesticide manufacturer's label. In all cases, the pesticide manufacturer's label should be consulted regarding specific adjuvant use recommendations and that rate followed.

Do not pre-mix with pesticides, nutrients or other adjuvants before mixing with water.

If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

### Order of Addition

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable Powders (WP), then Flowables (F, DF)
2. Agitate, then add anti-foaming compounds, buffers
3. Liquid and Soluble products
4. Emulsifiable concentrates (EC)
5. BARK OIL BLUE and other adjuvants

Prior to mixing, fill spray tank with half of the carrier intended for use, usually water. Then start the sprayer and check to make sure that all valves and gauges work and there is proper tank agitation.

### USE RATES

Blend the herbicide with BARK OIL BLUE at a ratio of 5% to 50% herbicide in diluent.

Ratios will vary with the herbicide and spray equipment used. Do not exceed the rate per acre indicated on the herbicide label.

### BASAL BARK TREATMENT

To control general mixed brush (refer to the herbicide label for species controlled) up to 6 inches in basal diameter. Spray the mixture of herbicide in BARK OIL BLUE to the lower 18-24 inches of the plant stem; or apply a 6-inch to 10-inch wide band that completely encircles the stem.

### STUMP TREATMENT

Stumps are also controlled with the herbicide mixture if the remaining wood, bark, and root collar area are thoroughly sprayed.

### STORAGE AND DISPOSAL

**STORAGE:** Store in a cool, dry place. Keep only in original container. Keep container tightly closed. Do not reuse empty container.

**DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. Dispose of contents/container on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at [www.acrcycle.org](http://www.acrcycle.org).
