KEEP OUT OF REACH OF CHILDREN WARNING - AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- All applicable directions, restrictions and precautions on the USEPA registered label are to be followed.
- This labeling must be in the possession of the user at the time of pesticide application.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- Coveralls
- Chemical-resistant gloves, such as barrier laminate or viton
- Shoes plus socks
- Protective eyewear

RECOMMENDED APPLICATIONS			
CROP	PEST	DOSAGE BAYTHROID® XL	
		LB AI Per Acre	FL Oz Per Acre
Christmas Trees	Adelgids Bagworms Budworms Grasshoppers Gypsy moth larvae Japanese beetle (adult) Midges Pine shoot beetle Pine shoot moths Pine tip moths Sawfly larvae Scale insects (crawler stages) Spittlebugs Tussock moth larvae Weevils (adult foliar feeding stages)	0.025	3.2
<p>NOTE: Applications should be started prior to establishment of high pest populations and reapplication made as necessary. Good spray coverage is necessary to provide the most effective level of control. Addition of a spreader/sticker at recommended rates may enhance control of insects on certain species of trees having hard-to-wet foliage.</p> <p>A total of 16 fluid ounces of BAYTHROID® XL per acre may be applied per crop season.</p> <p>Applications may also be made to those select trees within Christmas tree plantings that are subsequently removed as a living tree and sold for landscape purposes. Additional treatment with Baythroid XL is not allowed once trees are removed from the field.</p> <p>Do not harvest trees within 24 hours of last application.</p>			

For MEDICAL And TRANSPORTATION Emergencies ONLY Call 24 Hours A Day 1-800-334-7577.

For PRODUCT USE Information Call 1-866-99BAYER (1-866-992-2937).

As with any crop-protection product, always read and follow label directions.

For additional information call toll-free 1-866-99BAYER (1-866-992-2937).
