

POWDER

BIOACT® SD

Stubble Digester

Product Information

BioAct SD is a stubble digester product formulated to accelerate the degrading process of field stubble and crop residue. **BioAct SD** contains humic acid and over a billion aerobic and anaerobic bacteria.

CONTAINS NONPLANT FOOD INGREDIENTS

Bacillus subtilis.....2 x 10⁹ cfu/gram
Pseudomonas putida.....1 x 10⁶ cfu/gram

3% Humic Acids (Derived from leonardite).

KEEP OUT OF REACH OF CHILDREN

**PRODUCT IS NOT COMPATIBLE WITH
BACTERICIDE.**

Directions and General Recommendations

BioAct SD requirements are generally dictated by crop and field conditions. Usage will vary with substrate composition, pH, moisture, and temperature. In general, increasing the **BioAct SD** dosage will increase the rate of residue decomposition. The recommended dosage is 1-2 lb of **BioAct SD** per acre (1-2 kg/ha). Mix **BioAct SD** with enough water and apply to the crop residues. Disk in the crop residues after the application for better results.

Precautionary statement: do not swallow. Avoid contact with eyes.

First Aid: if swallowed: seek medical attention. Rinse mouth. If in eyes: remove contact lenses if present. Wash thoroughly with water for several minutes. **Storage & Disposal:** store in a safe manner. Dispose product/ container in accordance with federal, state, and local regulations.

STORAGE

Store in cool dry places. Avoid direct sunlight and heat. Keep from freezing.

NET CONTENTS: 25 lb. (11.3 kg)
