Directions for Commercial Use:

Ground apply BioMax at a rate of 1 to 2 quarts per acre. BioMax can be ground applied or injected through most irrigation systems including drip and center pivots. If ground applying, ensure that BioMax is incorporated into the soil within two weeks after application, either mechanically or with sufficient water to wet soil to a depth of 1 inch. BioMax can be mixed with most fertilizers and pesticides. A compatibility check is recommended. BioMax is intended to supplement and enhance a full ground fertility program as recommended in accordance with a reliable soil analysis. If you have any questions regarding mixing or application rates contact your Agro-K dealer before using this product.

Warning:

Do not put BioMax through sub-surface irrigation tape that has been pre-treated with herbicides. Do not mix BioMax with pre-emergent herbicides.

Guaranteed Analysis:

Cobalt (Co) 0.12%
