

# BIOMIN<sup>®</sup> IRON

## Complexed Mineral for Soil and Foliar Application

1-0-0

### Product Information

**BIOMIN IRON** contains complexed iron for soil and/or foliar application. Completely bioavailable and non-phytotoxic to plants when applied in accordance to directions. Designed to prevent and correct iron deficiency and to boost crops during critical or fast growing periods. May be applied with nitrogen fertilizers.

#### GUARANTEED ANALYSIS

Total Nitrogen (N).....	1.0%
1.0% Water Soluble Nitrogen	
Iron (Fe).....	5.0%
5.0% Complexed Iron	

Derived from ferrous sulfate, and hydrolyzed vegetable protein.

**KEEP OUT OF REACH OF CHILDREN**

**SHAKE WELL BEFORE USE  
PREVENTS AND CORRECTS  
IRON DEFICIENCIES**

### Directions and General Recommendations

#### SOIL APPLICATION

**BIOMIN IRON** can be applied before or at planting as banding or broadcast. The application rate is 1 qt. to 1 gal./ac. (2.5-10 l/ha) depending on soil conditions and application methods. For maintenance, 1 qt./ac. (2.5 l/ha) is recommended. Dilute **BIOMIN IRON** with enough water to cover the entire acre.

#### FOLIAR APPLICATION

**FIELD CROPS:** Apply 1-4 pt./ac. (1.25-5 l/ha) of **BIOMIN IRON** when crops are about 4-6 in. (15-30 cm) high or when deficiency symptoms appear. Repeat the application in 2-4 weeks if necessary.

**FRUIT TREES AND GRAPES:** Apply 1-4 pt./ac. (1.25-5 l/ha) starting at bud break or when deficiency symptoms appear. Repeat the application in about 4 weeks if necessary.

**VEGETABLE CROPS:** Apply 1-4 pt./ac. (1.25-5 l/ha) of **BIOMIN IRON** at about 2-4 weeks after emergence, or when deficiency symptoms appear. Repeat the application in 1-3 weeks if necessary.

**ALMONDS, WALNUTS, PISTACHIOS, AND OTHER NUT CROPS:** Apply 1-4 pt./ac. (1.25-5 l/ha) before bloom. Repeat the application if necessary.

For best results, apply **BIOMIN IRON** when the crop is in active growing stage, after irrigation or natural rain fall. For foliar application, dilute it with at least 100 times of water. **BIOMIN IRON** will lower high pH of water and decrease the hydrolysis of most pesticides.

**BIOMIN IRON** can be applied to lettuce, strawberry, tomato, celery, stone fruit, grapes, vegetables, commercial turf, and ornamental gardens.

**Precautionary statement:** do not swallow. Wash hands thoroughly after handling. **First Aid:** if swallowed: Seek medical attention if feeling unwell. Rinse mouth. **Storage & Disposal:** store in a safe manner. Dispose product/container in accordance with federal, state, and local regulations.
