

Blue Nitro®

Organic Fertilizer

14% Natural Protein Nitrogen

- **Blue Nitro** is derived from a natural hydrolyzate of non-GMO soy protein, is composed of amino acids and short chain polypeptides.
- **Blue Nitro** is extracted naturally through a patented enzyme related to soy, transforming it into a highly soluble 100% organic powder, with a guarantee of 14% of protein nitrogen.
- Using **Blue Nitro** does not require the use of conventional nitrogen is required, therefore it is the ideal source, like a clean, natural nitrogen.
- **Blue Nitro** is a source of nitrogen that can be used in organic production either in soil-directed applications, substrates in hydroponic management or in foliage applications.
- The enzymatic hydrolysis process used to obtain our **Blue Nitro** results in a smaller particle size, producing a powder highly soluble in water, and therefore does not clog irrigation systems.
- **Blue Nitro** is a 100% organic product with no environmental impact that does not give off unpleasant odors.

● **Blue Nitro Benefits:**

- Natural product without any environmental impact.
- 100% water soluble.
- 14% protein nitrogen content.
- Compatible with all nitrogen sources
Conventional and most fertilizers
- Reduces the consumption of nitrogens based on Fossil sources.
- Can be applied in a foliar way.

Application Dose:

All crops:

Depending on growth rate and handling conditions can vary from 2 to 7 pounds per acre.

Vegetables:

Tomatoes, chilies, cucumbers, cabbage, cauliflower, melon, onion, potatoes, etc.

Grapes and Berries:

Including but not limiting grapes, strawberry, blueberry, raspberry, blackberries, etc.

Extensive Crops:

Including but not limiting wheat, maize, alfalfa, cotton, sorghum, beans, cane, etc.

Trees:

Including but not limiting olive, citrus, pistachio, walnut, apple, almond, etc.

Ornamental Shrubs and Trees :

Including but not limiting rose, azalea, gardenia, etc.

Lawn and grass:

Including but not limiting seasonal pastures, gardens, golf courses, lawn production, etc.
