

Brandt[®] Organics Ag Aide

Spreader • Activator

Principal Functioning Agents:

Yucca schidigera extract100%

CA Reg. No. 48813-50016-AA

DIRECTIONS FOR USE

BRANDT ORGANICS AG AIDE is a natural, non-ionic surfactant that enhances the activity and performance of pesticides. When applied foliarly, this product provides rapid wetting and improves absorption of the spray solution. When applied to the soil, the product increases water penetration and improves wetting of hydrophobic soils. This product may be used on agricultural, aquatic, forestry, turf and ornamental, industrial, and noncropland sites. NOT FOR AQUATIC USE IN WASHINGTON.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with this product. Use according to the most restrictive label directions for each product in any tank mix.

COMPATIBILITY: BRANDT ORGANICS AG AIDE is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

MIXING: Shake well before using. Fill spray tank 2/3 to 3/4 full of water and begin agitation. To prevent or minimize foaming, add anti-foaming agent to the spray tank before adding other tank mix components. Add this product at agitation level with paddles turning and then follow with other ingredients as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersing granules, (2) Wettable powders, (3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. Minimize agitation and add the recommended amount of BRANDT ORGANICS AG AIDE and mix for 1 to 2 minutes. Continue filling tank maintaining minimal agitation. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

RECOMMENDATIONS: Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 5% of the finished spray volume.

Soil Application: *For normal soils:* Use 1 pint per acre. *For compacted soils:* Use 2 pints per acre. For compacted soils or for water penetration problems, use 2 pints per acre on first application. Repeat application at 1 pint rate if needed. **Row Crops:** Meter into the first irrigation water or mix with starter or side dress fertilizer. **Trees and Vines:** Meter into the first irrigation water for drip irrigation system or, if drip irrigation is not used, dilute in sufficient water for coverage and spray soil surface to be irrigated. **Transplants:** Mix with transplant water.

Foliar Application: Use 4-16 fl. oz. per 100 gallons of finished spray solution. For improved efficacy, use at least 8 fl.oz. per acre when finished spray volume is less than 20 gallons per acre. For backpack or hand held sprayers, use 1/3 to 1 1/4 fl.oz. per gallon of finished spray solution.

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes serious eye irritation. Wear protective eyewear, long sleeved shirt, long pants, shoes plus socks and chemical resistant gloves made of any waterproof material when mixing or handling concentrate. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in original container away from children, animals, foods, feeds seeds and incompatible materials. Store away from direct sunlight and heat sources. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

LIMITED WARRANTY: Brandt Consolidated, Inc. ("BCI") warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. BCI and Seller make no other warranties, express or implied, including warranty of merchantability or fitness for a particular purpose. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, BCI and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
