

Brandt[®] Inhance

Water Conditioning Agent

Principal Functioning Agents:

Ammonium sulfate*	34%
Constituents ineffective as spray adjuvant	66%
Total	100%

*Contains 3.4 lbs of ammonium sulfate per gallon

Guaranteed Analysis:

Nitrogen (N)	7%
7% Ammonical nitrogen	
Sulfur (S)	8%

Derived from ammonium sulfate

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes eye irritation. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Avoid release to the environment.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Store away from incompatible materials. Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

DIRECTIONS FOR USE

BRANDT INHANCE is a water conditioning agent designed for use with herbicides that recommend or require the addition of ammonium sulfate. BRANDT INHANCE improves herbicide performance by increasing uptake and reducing herbicide antagonism.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with BRANDT INHANCE. Use according to the most restrictive label directions for each product in any tank mix.

COMPATIBILITY: BRANDT INHANCE is compatible with most fertilizers and pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

MIXING: Shake well before using. Fill spray tank 1/2 full of water and begin agitation. Add the recommended amount of BRANDT INHANCE. Add products as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersible granules, (2) Wettable powders, (3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. Continue agitation until spray solution is completely mixed. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

RECOMMENDATIONS: Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 5% of the finished spray volume.

For Use as a Water Conditioner (Ground or Air): This product provides 8.5 to 17 pounds ammonium sulfate when used at a rate of 2.5 to 5 gallons per 100 gallons of finished spray solution. For improved efficacy, use at least 2 quarts per acre when finished spray volume is less than 20 gallons per acre.

For Use as a Fertilizer: Use 1-2 quarts per 10-20 gallons of water per acre per application.

WARRANTY: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
