Deposition Aid • Drift Control Agent

## Principal Functioning Agents:

|  |      |
|--|------|
| Polyvinyl Polymer.....                           | 1%   |
| Constituents Ineffective as Spray Adjuvant:..... | 99%  |
| Total:.....                                      | 100% |

CA Reg. No. 48813-50011

## KEEP OUT OF REACH OF CHILDREN

### WARNING

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Causes eye and skin irritation. Harmful if swallowed or inhaled. Wear protective eyewear, long sleeved shirt, long pants, shoes plus socks and chemical resistant gloves made of any waterproof material when mixing or handling concentrate. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

### ENVIRONMENTAL HAZARDS

Do not apply to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

## FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice.

**IF ON SKIN:** Immediately take off contaminated clothing and wash before reuse. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If skin irritation occurs, get medical advice.

**IF INHALED:** Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor if you feel unwell. If person is not breathing, call 911 and give artificial respiration.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in original container in a cool, dry place away from children, animals, foods, feeds and seeds. Keep container tightly closed when not in use. Take care to prevent water from being introduced to the contents of this container. Keep away from sparks, flame, static electricity or other ignition sources. Shake well before use and keep from freezing.

**PRODUCT DISPOSAL:** Disposal of contents and/or container must be in compliance with local, state, and federal laws and regulations.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org). Decontaminated containers may also be disposed of in a sanitary landfill.

## Net Contents:

2.5 gallons (9.46 liters)

## DIRECTIONS FOR USE

BRANDT ONSITE is an effective, easy-to-use, precision spray adjuvant for increasing spray deposition, crop canopy penetration and drift reduction. It can improve deposition of pesticides in the target swath and can retard, but not totally eliminate, spray drift. The potential for drift is dependent on application conditions, the type of pesticide to be sprayed, and vegetation near the target area. NOT FOR AQUATIC USE.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with BRANDT ONSITE. Use according to the most restrictive label directions for each product in any tank mix.

**COMPATIBILITY:** BRANDT ONSITE is compatible with most water-soluble, emulsifiable and wettable powder crop and non-crop pesticides when applied by aerial or ground equipment. However, if the desired combination or order of addition has not been previously used, a compatibility test is recommended.

**MIXING:** Select correct dosage from rate recommendation chart. Shake product before using. For optimum results, add wettable powder pesticides before BRANDT ONSITE. Add liquid pesticides after this product. Wetter-spreaders may be added before or after this product. BRANDT ONSITE should be added to the agitating tank mix. For tanks with weak agitation, add this product during the tank filling operation. Continue to agitate the mix tank before application.

## RATE RECOMMENDATIONS:

| Aerial Application Equipment              |                           |                                |
|---|---------------------------|--------------------------------|
| <i>Spray Pressure</i>                     | <i>Nozzle Orientation</i> | <i>Rate per 100 gal. spray</i> |
| Up to 45 PSI                              | Straight back             | 2-4 quarts                     |
| Up to 45 PSI                              | 45° angle back            | 3-5 quarts                     |
| Ground Application Equipment with Nozzles |                           |                                |
| <i>Spray Pressure</i>                     | <i>Nozzle Type</i>        | <i>Rate per 100 gal. spray</i> |
| Up to 30 PSI                              | Flat fan, Flood jet       | 1-3 quarts                     |
|   | Off center                | 2-3 quarts                     |
| 30 to 50 PSI                              | Flat fan, Flood jet       | 2-3 quarts                     |
|   | Off center                | 3-4 quarts                     |
|   | Hollow cone, raindrop     | 1-3 quarts                     |
|   | Spray guns                | 3-5 quarts                     |
| 50 to 150 PSI                             | Spray guns                | 3-10 quarts                    |
| Other Ground Application Equipment        |                           | <i>Rate per 100 gal. spray</i> |
| Air Blast Sprayers                        |                           | 1-3 quarts                     |
| Controlled Droplet Applicators            |                           | 1-4 pints                      |
