Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.
- The user should have this recommendation in its possession at the time of use.
- Use of this product according to this bulletin has not been reviewed or endorsed by the Office of the Indiana State Chemist.
- This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.

Briskway will provide control of Bermudagrass Decline or Take-All Root Rot (*Gaeumannomyces graminis* var. *graminis*) on Golf Course Turfgrasses. Apply at a rate of 0.5 to 0.725 fl. oz/1000 sq. ft. on a 14-28-day interval. Use preventatively. Begin applications when conditions are favorable for disease infection, prior to disease symptom development.
