## GENERAL INFORMATION

**CELL POWER<sup>®</sup> SizeN<sup>®</sup>** help increase yields and quality. Recommendations to be used with Soft fruit, Top fruit, Tomato, and Pepper, Leafy Vegetables, Brassica, Grapes and Potatoes. It may be used in combination with water soluble plant nutritional products which are formulated for foliar, sidedress or drip irrigation application. May be applied alone or in tank mixes containing fertilizers, fungicides and/or pesticides. **CELL POWER<sup>®</sup> SizeN<sup>®</sup>** is believed to be compatible with most agricultural water-soluble plant nutritional products. If physical compatibility with another fertilizer product is unknown, use a jar compatibility test.

## ONCE PRODUCT IS DILUTED, USE WITHIN 24 HOURS

### DIRECTIONS FOR USE

**All Permanent Crops:** Apply ½ gallon/acre near bloom. Continue ½ gallon/acre applications every two weeks during the fruit sizing period. One application pre-bloom at ½ gallon per acre may be applied. Apply post-harvest applications of up to 2 gallons prior to true dormancy on all permanent crops.

**All Strawberries, Caneberries & Blueberries:** Begin applying as early as bloom at ½ gallon/acre. Continue the applications every two weeks during the flowering/fruit setting cycles of the crop. For Blueberries which are more determinate, begin applications at fruit set and go every two weeks during the fruit sizing period.

**All Field Crops and Hops:** Begin application of ½ gallon/acre prior to bloom and continue for two weeks during the active growing prior of the crop.

**All Vegetable Crops:** Begin applications right after thinning/planting and make 2-4 total applications at ½ gallon/acre every two weeks during the most active period of the crops growth.

### SOIL APPLICATION RECOMMENDATIONS

**Shake well before use:** Apply **CELL POWER<sup>®</sup> SizeN<sup>®</sup>** up to 32 gals/acre/season split into applications of 0.5-8 gal. Minimum 1-10 dilution in water. Suitable for application through all irrigation systems. **Foliar Application Rate:** 0.5 gal/acre, or 1% spray solution and spray till run-off, avoid spraying during direct sunlight. **Tank Mixing:** Compatible with most common pesticides and fertilizers. Always jar test before tank mixing to ensure physical compatibility.

### STORAGE and DISPOSAL

**Storage:** Store in a cool, dry, well-ventilated place out of direct sunlight. Store in original tightly closed container away from children, animals, foods, feeds, and seeds. Store at ambient temperatures.

**Product and Container Disposal:** Do not contaminate water, food, or feed by storage or disposal. Empty containers or liners may retain some product residues. Triple rinse (or equivalent), during mixing and loading. Dispose of contents in accordance with local/regional/national/international regulations.
