## GENERAL INFORMATION

**Cell Power® Zynergy** is a inorganic foliar fertilizer to correct copper and zinc deficiencies in all crops. It should be diluted in total water volumes of 20-200 gal/acre. Always add this product to spray tank first while agitating. Do not apply at times of water stress. Apply **Cell Power® Zynergy** during periods of nutritional stress. **Cell Power® Zynergy** is compatible with most, but not all pesticides, both as regards physical mixing in the tank & as regards the biological effect on the crop. However, Omex® cannot accept any liability for any loss or damage as not all pesticides have been tested & because the efficacy of the mix will depend on, among other factors, the pesticide concerned, crop conditions, growth stage, weather & volumes of water used.

### ONCE PRODUCT IS DILUTED, USE WITHIN 24 HOURS DIRECTIONS FOR USE
