

TRIO

MODIFIED VEGETABLE OIL CONCENTRATE • ORGANOSILICONE SURFACTANT

PRINCIPAL FUNCTIONING AGENTS:

Proprietary blend of methylated seed oil	99%
and organosilicone surfactant	1%
Constituents ineffective as a spray adjuvant	
TOTAL	100%

All ingredients are exempt from tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN

CAUTION

Read label before use. Keep container tightly closed. Keep only in original container. Avoid breathing spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves, protective clothing, eye protection.

FIRST AID

Have the product container with you if calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance.

GENERAL INFORMATION

Trio™ thoroughly wets the canopy and helps to increase the spread and penetration of the spray application through waxy or weather hardened cuticles.

Trio™ improves uptake of the active ingredient and its distribution to the mode of action site.

Trio™ is an industry standard, methylated biodiesel seed oil (MSO) and organosilicone (OSS) blend that significantly assists the field performance of active ingredients whose labels recommend an oil adjuvant.

DIRECTIONS FOR USE

Follow the directions on the most restrictive active ingredient tank mix partner label.

If the active ingredient does not specify the use of a methylated seed oil (MSO) and organosilicone surfactant (OSS), follow the directions below.

Use only if a methylated seed oil (MSO) and an organosilicone surfactant (OSS) are allowed or not excluded on the label.

Trio™ does not contain ammonium sulfate.

If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

Order of addition

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable Powders (WP) then Flowables (F, DF)
2. Agitate then add anti-foaming compounds, buffers
3. Liquid and Soluble products
4. Emulsifiable concentrates (EC)
5. **Trio™** and other adjuvants

Prior to mixing, fill the spray tank with half of the carrier. Then start the sprayer and check to make sure that all valves and gauges work and that there is proper tank agitation.

USE RATES

Application	Amount of Trio™ per 100 gallons of spray solution
Turf and ornamentals	16-48 ounces
Agriculture and citrus	16-48 ounces
Rights of way & forestry	16-32 ounces
Aquatic/surface	16-32 ounces
Aquatic/submerged	20-40 ounces

Higher rates may be necessary when the target species is mature and hard to wet.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. STORE BETWEEN 40° AND 90° F.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

NOTICE TO USERS: Seller warrants the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
