GENERAL DIRECTIONS

Crop Finish Plus is a quick mixing, highly soluble dry foliar nutrient formulated to supplement a balanced fertility program and aids in development of coloring. To achieve maximum results recommendations must be based on tissue and soil nutrient analysis. Multiple low rate applications are generally more effective than a single high rate application.

APPLICATION: **Crop Finish Plus** may be applied as a foliar spray by air, concentrate or dilute. Apply during dormancy or as a cover spray. Applications may be made through irrigation systems if effective anti-siphon equipment is in place to prevent water source decontamination.

MIXING: Fill spray tank 1/3 full of water, add **Crop Finish Plus**, agitate, continue to add water and spray materials. **Crop Finish Plus** should dissolve quickly and mix thoroughly. Speed of mixing is dependent upon water temperature and quality.

USE PRECAUTIONS

CAUTION: Applications of fertilizer compounds containing molybdenum (Mo) may result in forage crops with molybdenum (Mo) levels which are toxic to ruminant animals. Use this product in accordance with good agronomic practices, which include utilizing proven spray equipment calibrated for adequate coverage. Do not spray when temperatures are greater than 85°F.

pH: **Crop Finish Plus** may reduce spray tank pH. Always test finished spray mixture pH prior to application. Do not apply in spray solution below pH 5.5.

COMPATIBILITY: When applied as a cover spray, do not use in combination with calcium chloride, spray oils, penetrating nonionic surfactants or oil concentrates additives. Do not apply with silicone based adjuvants. Do not use in combination with 2 or more emulsifiable concentrate or oil based pesticide formulations.

APPLICATION CONDITIONS

Thorough and even coverage is essential for maximum benefit and to prevent spray damage. Do not apply if spray solution will not dry thoroughly within 2 hours of application.

APPLICATION RATES: Apply **Crop Finish Plus** at the rate of 2 pounds per 100 gallons of water and spray to run off observing all usage precautions. For concentrate applications apply 5 to 10 pounds **Crop Finish Plus** per mature acre. Begin applications 1 to 3 months before harvest to promote fruit sizing, enhanced color and sugar development.

WARNING: Harmful in contact with skin or swallowed. Suspected of damaging fertility or the unborn child.

Precautionary Statements: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear eye/face protection and protective gloves/clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment. Collect spillage. **First Aid:** *If on skin:* Wash with plenty of water. Take off contaminated clothing and wash before reuse. Call a doctor if you feel unwell. *If swallowed:* Rinse mouth. Call a doctor if you feel unwell. If exposed or concerned, get medical attention. **Storage and Disposal:** Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store locked up. Dispose of contents/container in accordance with local regulations.

NON-WARRANTY: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability of fitness for a particular purpose, expressed or implied, extends to the use, storage or handling of the product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to damage of plants, crops and animals to which the materials is applied, failure to control pests, damage caused by drift to other plants or crops and personal injury.
