

# GENESIS CROP OIL CONCENTRATE PLUS

## Crop Oil Concentrate

**GENERAL:** CROP OIL CONCENTRATE PLUS is a high performance, multi-component adjuvant. CROP OIL CONCENTRATE PLUS may be used with products registered for agricultural, forestry, industrial, municipal, non-cropland, ornamentals, rights-of-way, tree crops, turf and other uses.

### DIRECTIONS FOR USE

READ AND FOLLOW ALL LABEL DIRECTIONS. The directions on this label are based on field experience and should be followed for most effective and safest use. Since CROP OIL CONCENTRATE PLUS increases the activity of herbicides, care should be exercised in applying it with a herbicide to new varieties or highly inbred lines or under weather conditions, such as high temperatures and high humidity, that tend to increase herbicide activity. The use of test areas is recommended, especially if these conditions prevail. CROP OIL CONCENTRATE PLUS may be applied by ground, aerial or CDA equipment. Some pesticides have stated adjuvant use rates. In all cases the pesticide manufacturer's label should be consulted regarding specific adjuvant use recommendations and that rate followed. Do not add adjuvant at a level that would exceed 5% of the finished spray volume. For tank mix compatibility concerns, conduct a jar test of proposed mixture to ensure compatibility of all components. Mix components in the same ratio as the proposed tank mix.

**GENERAL USE RATE: 1 TO 8 PINTS PER ACRE**

**NOTE:** Charts of suggested uses are intended to serve as a guide for the use of CROP OIL CONCENTRATE PLUS. The use is not limited to these herbicides, desiccants, defoliant, these crops or suggested rates. Consult with a licensed crop advisor for specific crop recommendations. **MIXING:** Fill spray tank 1/2 full of water, add the desired amount of herbicide and continue filling. Add the correct amount of CROP OIL CONCENTRATE PLUS last and continue agitation.

### PRECAUTION

Reduce rates when applied during high temperature conditions. When in doubt, pretesting of the intended tank mixture is recommended to check for damage. If damage occurs do not use.

<b>Principal Functioning Agents</b> .....	98.36%
White mineral oil, Tall oil fatty acids, 4-Nonylphenol, branched, ethoxylated	
<b>Constituents ineffective as spray adjuvants</b> .....	1.64%
<b>Total</b> .....	100.00%

Contains petroleum distillates

## KEEP OUT OF REACH OF CHILDREN

### WARNING

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle

## PRECAUTIONARY STATEMENTS

Hazardous to humans and domestic animals.

**Causes eye irritation - Harmful if swallowed - Harmful if absorbed through skin - Avoid breathing vapors - Avoid breathing mist - Avoid contact with skin - Avoid contact with eyes - Avoid contact with clothing - Applications and handlers must wear chemical resistant gloves, such as nitrile rubber greater than 14 mils, coveralls or long sleeved shirt and long pants, and shoes plus socks. Wear eye protection. Wash thoroughly after handling.**

## FIRST AID

### STATEMENT OF PRACTICAL TREATMENT

**IF IN EYES:** IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Remove contact lenses, if present and easy to do. Obtain medical attention if irritation persists. **IF ON SKIN:** Rinse skin with water/shower. Get medical attention if irritation develops and persists.

**IF SWALLOWED:** Rinse mouth. If ingestion of a large amount does occur, call a poison control center immediately. **IF INHALED:** If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.

**Environmental Hazards:** Do not apply directly to water or to areas where surface water is present or in inter-tidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of washwater.

### NOT FOR AQUATIC USE

### STORAGE AND DISPOSAL

**PESTICIDE Storage:** Keep out of reach of children and animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use, replace lid and close tightly. Do not put concentrate or diluted material into food or drink containers. Do not contaminate other pesticides, fertilizers, water, food, or feed by storage or disposal. In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confine spills. Call: **CHEMTREC (800) 424-9300**.

**To confine spill:** If liquid, dike surrounding area or absorb with sand, cat litter or commercial clay. If dry material, cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

**Pesticide disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container disposal: Metal:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Do not cut or weld metal containers. **Plastic:** Triple rinse (or equivalent).

Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill. **The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Burning is not an approved method of container disposal in Washington State.**

### NOTICE OF WARRANTY

The manufacturer makes no warranties, expressed or implied, concerning this product or its use, which extend beyond the description on the face hereof. All statements made concerning this product apply only when used as directed.
