

PROFESSIONAL SERIES FERTILIZERS

CaTS Gold

0-0-0+6Ca+10s

Guaranteed Analysis:

Calcium (Ca)6.0%
Sulphur (S) 10%
Derived from Calcium Thiosulphate

General Information: This product is a custom blend of calcium thiosulphate. This formulation is designed for root applications such as fertigation, and root injections. It is also designed to work in all soil types and conditions. Apply it as a band in the soil or inject it through drip or micro sprinkler systems. Application rates will vary depending on the crop.

Application Precautions: Always check compatibility with other products prior to mixing together. It is recommended that soil and or tissue samples be analyzed to determine nutrient levels prior to use.

Directions for Use:

Injection Application Rates: For Highbush blueberries, Raspberries, Cranberries and Stone fruits Use : 45-90 L per Ha / 5-10 Ga per acre in a minimum of 500L of water per Hectare. Allow enough water for adequate penetration into the soil. Always cycle water through the lines prior to injecting as well as after the injection is complete cycle enough water through the system to clear all lines.

Note: for all crops, the rate of water should be sufficient for thorough coverage and penetration.

Mixing instructions: This Blend mixes easily with water. For use in commercial sprayers see as follows:

1. Partially fill tank with water and start agitation
2. Add pesticides or other nutrients products
3. Add this blend to your circulating tank mix
4. Fill tank and agitate thoroughly

First Aid Measures: **If in eyes:** flush with clean running water for at least 15 minutes. If irritation persists, seek medical attention. **If on skin:** Remove contaminated clothing and wash thoroughly with soap and water. **If Swallowed:** drink 1 glass of water and seek medical attention. **If inhaled:** Remove to fresh air environment. If problem persists, seek medical attention.
