GENERAL INFORMATION

COHERE® is a water dispersible spreader sticker adjuvant. COHERE® is designed to improve the efficacy of many pesticides by increasing the spreading and adhesion of spray deposits on leaf surfaces. Unlike conventional spreader-sticker products, COHERE® provides excellent surface tension reduction resulting in increased coverage of plant surfaces. In addition, COHERE® reduces the tendency for washoff of the spray deposit by light to moderate rainfall, heavy dew or irrigation water applied by above canopy sprinkler systems. COHERE® does not contain petroleum or vegetable-based oils. Optimum application and effects, however, can be influenced by the crop, pest, spray equipment, spray volume, pressure, droplet size, spray mixture and environmental factors. Consequently, it is recommended that careful observations of the spray deposit be made and adjuvant concentrations be adjusted accordingly.

DIRECTIONS FOR USE

FOR USE WITH PRODUCTS REGISTERED FOR: AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND, ORNAMENTAL, RIGHTS-OF-WAY, TURF, AQUATIC AND OTHER USES.

The addition of an adjuvant to some pesticides or pesticide tank mix combinations may cause phytotoxicity to the foliage and/or fruit of susceptible crops. NOTE: DO NOT USE COHERE® alone or in combination with other nutritional or pesticide spray mixture applications to Blueberries. Prior to the addition of COHERE® to spray tank mixes and/or prior to the application of COHERE® with a pesticide and/or fertilizer where a spreader-sticker adjuvant is not specifically recommended but not prohibited by the pesticides’ label, the user or application advisor must have experience with the combination under similar environmental and crop cultural conditions and/or have conducted a phytotoxicity trial under similar environmental and crop cultural conditions.

COHERE® may be applied by ground or aerial spray equipment. COHERE® may be applied in concentrate or dilute sprays. In most applications, use enough COHERE® to allow for uniform wetting and deposition of the spray onto leaf surfaces without undue runoff.

GROUND USE

Use 1/2 to 1 pint of COHERE® per 100 gallons of total spray solution per acre. Use sufficient spray for thorough coverage, or the amount of total spray solution recommended by the pesticide label(s).

1. Water (as specified by pesticide label)
2. Add all Pesticides or Spray Materials
4. Add COHERE®

CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale–Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full price will be refunded.

The directions on this label are believed to be reliable and must be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Helena Agri-Enterprises, LLC (the "Company") or the seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment.

The Company warrants that this product conforms to the chemical description on the label and is a water dispersible spreader sticker adjuvant. It is a registered trademark of Helena Holding Company.
