Specific Hazards Arising from the Chemical : Do not inhale combustion gases. Burning produces heavy smoke.

Special Fire Fight Proc : Wear self-contained breathing apparatus and full protective clothing. Collect contaminated fire fighting water separately. Do not discharge into drains. Move damaged containers from immediate hazard area if it can be done safely.

6. Accidental Release Measures

Personal Precautions : Remove all sources of ignition. Provide adequate ventilation. Remove unnecessary personnel to safety.

Protective Equipment : Impervious (PVC-coated) gloves, splashproof goggles, protective apron and footwear. Emergency shower and eyewash station should be available.

Emergency Procedures : Spills may be reportable to the National Response Center (1-800-424-8802). Do not contaminate water supplies, lakes, streams, ponds or drains with spilled product.

Methods and Materials for Containment and Cleanup : Dike spill. Absorb with inert material and collect for disposal. Flush area with water. Absorb, collect and place in chemical waste disposal containers.

7. Handling and Storage

Precautions for Safe Handling : Avoid contact with skin and eyes. Avoid inhalation of vapors and mists. Do not use on extensive surface areas in premises where there are occupants. Do not use empty container before they have been cleaned. Before making product transfers, assure there are no incompatible material residues in containers. Contaminated clothing should be changed before entering eating areas. Do not eat or drink while handling.

Conditions for Safe Storage : Store in original container only. Do not contaminate water, food or feed by storage or disposal. Keep packages tightly closed and do not allow water to be introduced to container contents. Do not contaminate water by runoff from cleaning of equipment, disposal of equipment washwaters or spray waste. Do not store this product near heat or open flame. Do not store with oxidizing agents or ammonium nitrate.
