DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This state specific Section 24(c) labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, and precautions on the EPA registered label for **COMITE (EPA Reg. No. 400-104)** and this label.

Ground Application

Use 24 – 48 fl oz of **COMITE** per acre in 25 to 40 gallons of water per acre.

Aerial Application

Use 24 – 48 fl oz of **COMITE** in a minimum of 10 gallons of water per acre.

SPECIFIC USE RESTRICTIONS

Do not apply this product through any type of irrigation system.

Restricted Entry Interval (REI): Observe an REI of 9 days.

Do not make more than two applications per season. Allow at least 14 days between applications.

NOTE: The feeding of treated foliage, alfalfa trash or seed screenings to livestock and the grazing of treated fields is prohibited.

All alfalfa seed grown or conditioned as a non-food or non-feed site in the state of Wyoming shall bear a tag or a container label which forbids the use of seed for human consumption or animal food. It shall be the grower's responsibility to notify the processing plants of any seed crop treated with **COMITE**.

No alfalfa seed grown or conditioned as a non-food or non-feed site in the state of Wyoming may be distributed for human consumption or animal feed.

Treated alfalfa seed is not to be used for sprouting.

COMITE is not hazardous to bees when used alone. However, bee hazards may be encountered when combined with other insecticides. Observe State Department of Agriculture regulations on the use of insecticides for seed alfalfa.

COMITE is compatible with most insecticides. Check **COMITE** label and information handbook for details.
